# 76cm Series 9 Contemporary Pyrolytic Oven

#### Series 9 | Contemporary

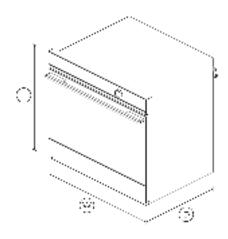

With a large capacity and beautiful contemporary styling, this builtin oven will complement your kitchen design perfectly.

- Touchscreen guided cooking capability offers helpful tips for different food types as well as full recipes
- 115L total capacity with 17 oven functions including Roast, Pastry Bake, Slow Cook and Rapid Proof
- Pyrolytic self-cleaning function breaks down food residue for an easy clean
- Non-tip, full-extension shelves for safe removal of hot dishes

# **DIMENSIONS**

# **FEATURES & BENEFITS**

# **Cook With Confidence**

Our touchscreen interface provides an intuitive guided cooking experience that helps deliver perfect results, whether you've been cooking all your life or just starting out. Cook with a favourite method, a hero ingredient, or a go-to cooking function or recipe.

#### **Generous Capacity**

With an incredible 115L total capacity in each oven, you can create many perfectly cooked dishes at once using multiple shelves.

#### **Multi-Function Flexibility**

The cooking functions have each been tailored, tested, tweaked and perfected to ensure that no matter what you're cooking, you've got the right heat to match. Purchase our Wireless Temperature Sensor accessory and precisely monitor cooking in real time (accessory sold separately).

# **Exceptional Performance**

AeroTech circulates heat evenly for a consistent temperature throughout the cavity, helping you ensure perfect results even when cooking on multiple shelves.

### Self-Cleaning

Our pyrolytic self-cleaning technology breaks down food residue at a very high temperature, leaving light ash easily removed with a damp cloth. The enamel-coated side racks don't need to be removed when using this function.

#### **Design Freedom**

Available in an elegant black or a stylish black with stainless steel, this oven is designed to fit seamlessly into your kitchen. Premium materials and detailing support a cohesive, considered kitchen design.

# **SPECIFICATIONS**

# Accessories (included)

# Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
