Notice:
Please use the delivery of the official standard adapter（5V1A), to avoid excessive current leading to short-circuit machine damage.

Getting Started

1. Powering On the GX:
Locate the power switch on the side of the GX.

Slide the switch to the ON position

(If the screen stays off, adjust brightness or charge the device.)
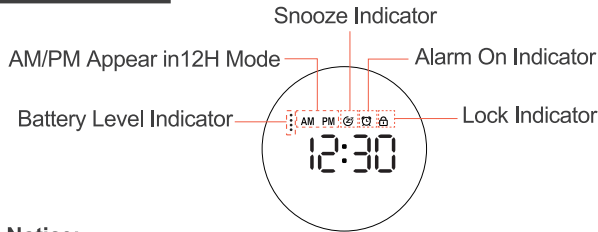

2. Charging the GX:
(1) Plug into a standard outlet.

1

---

(2) Align the bottom's two magnetic charging ports with the two points on the charging base, connect to charger.

(3) When charging starts, the indicator blinks for 5 seconds and then shows the current battery level. All four dots light up when fully charged.

light blink; full-charged

Notice:
To charge the device, the back side (marked with model and brand) must face inward. Placing it outward will disable charging.
