◆ Statement

Intellectual property right statement: The hardware design and software of

this product are covered by the patents.Anyone who reproduces this product or the content of

the instruction without the authorization of the Company shall assume legal liabilities.

This manual is for reference only, and the actual function of the final product is

subject to the actual function of the product received by the customer.

The picture is for reference only, please refer to the actual product. The company

reserves the right to improve and change the appearance and design of the product without

notice.

FCC COMPLIANCE STATEMENT:
This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and,

if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/ TV technician for help.
FCC Radiation Exposure Statement
This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provide with antenna installation instructions and transmitter operating conditions for satisfying RF exposure
⚠ 1.Installation Procedure

Warning: Please make sure the power cord of the Interactive Flat Panel (IFP) is disconnected before installation.
1) Take off the Cover.

2) Insert the WiFi module fully into the IFP along the direction of the arrow.

3) Complete assembly.

Note: This WiFi module only works for the IFP by plugging it into the above slot.

2.Function

After completing the installation, turn on the IFP, and the WIFI module will run automatically.

1)Click "Settings" on the screen.

2)Click "Wireless network" , you can turn on/off the Wi~Fi.
