Mounting

Saddle Ai Alert is designed to be mounted on standard dual rail seats,
including 7mm diameter rails and 7x9mm carbon rails within the standardized section of rail.

1. Loosen rail hooks before installation.
2. The mounting of the Saddle Ai Alert hooks can be mounted either in an upward or downward orientation.
3. Light must be mounted parallel to the ground.
4. Using a T25 wrench, secure the rail hooks on both sides. Equally tighten to 3-4 N·m (30-40 kgf*cm).
