SHARP

Be Original.

Say hello
to the trusted
legacy of technology
& innovation.

We are an ISO 9001:2015 certified and wholly owned Indian subsidiary of SHARP Corporation, Japan - a company with over 111 years of legacy.

SHARP India is supported by a well-trained sales and service force, delivering superior, original, and innovative solutions to the people with a host of market-leading B2C products. We are dedicated to improve people's lives by providing cutting-edge solutions with a complete range of Smart Home Solutions.

With presence in over 10 cities, and over 500+ channel partners, SHARP is committed to being the no.1 quality brand in India by providing innovative, quality, and reliable home products for a "**Simply Better Life**" for our customers.

We are committed towards minimising the environmental burden, through the effective implementation on the e-waste management process under our environmental policy and strong business ethics. After all, we at SHARP are not just working towards making a better business, but also a better world.

WE BUILD THE *EXTRAORDINARY*

Plasmacluster Technology

Plasmacluster ions are the same type of positive and negative ions that occur in nature. This proprietary SHARP technology purifies air, and it has been proven safe to humans no matter the ion concentration. Highly concentrated levels of Plasmacluster ions have been proven to purify air, eliminate odours, moisten facial skin, and reduce static electricity. Plasmacluster ions keep people and the air around them healthy. SHARP is constantly developing new ways that Plasmacluster can bring benefits to the society.

7 Shield Protection

All SHARP products pass through the strict Japanese quality standard. SHARP products are proven to have safe operation and high endurance under various circumstances. Now you can enjoy your life with good quality products that are protected by 7 Shields.
