

Model # **CODA56**

# Quick Install Guide

Cable Modem

**Xfinity Customers:**

Use the Xfinity App  
to setup this modem.

Xfinity App

# Step 1: Set up the Cable Modem

## For Comcast XFINITY Users Only:

- A** Download the Xfinity app on your mobile phone to set up and activate your Internet in minutes, by scanning the QR code to the right or by visiting [xfinity.com/activate](http://xfinity.com/activate)
- B** Go to Step 3 once your modem is activated.

*If you are having trouble, contact Comcast Xfinity  
1 (800) XFINITY (1 (800) 934-6489)*

**xfinity**

**OR**

## For Non-Xfinity Users or Xfinity Users without a Smartphone:

- A** Find your Cable Internet Account number and login information (your email address or username, password) and have it ready for Step 3.

Login Username:

Login Password:

- B** If you are replacing a Cable Modem that is currently connected in your home, unplug the old modem and remove it from its current location. Place this new cable modem in the same spot as the previous modem. Otherwise, place the cable modem near a coax and power outlet.
- C** Connect a coaxial cable (provided in the box) from the Cable Modem to a Coax Outlet on the wall. Make sure that the cable is tightly connected.
- D** Get the Power Adapter (External, 12V DC, 2A, made by MOSO, Model #MSS-V2000WR120-024E0-US) and connect it from the Modem to a Power Outlet.
- E** Wait until the four LED's are Solid **Green** or **Blue**.

*This may take up to 10 minutes.*

*If not, please check that the coax cables are tightly connected. If so, please call your Internet Service Provider. It is possible that your Internet service has not been activated.*

**Power...** **Green** when powered on

**Upstream...** Solid **Green** or **Blue** when connected to an upstream channel

**Downstream...** Solid **Green** or **Blue** when connected to a downstream channel

**Online...** **Green** when connected to your Internet Service Provider

## Step 2: Configure your Modem

- A** Activate your new cable modem by following your ISP activation URL (See table below.) You will need the CM MAC address from the label as part of the activation process.

CM MAC Address

Internet Provider	Activation URL	Activation Contact
Cox	<a href="https://cox.com/activate">cox.com/activate</a>	1 (888) 556-1193
Charter / Spectrum	<a href="https://activate.spectrum.net">activate.spectrum.net</a>	1 (833) 267-6094

For other supported ISPs, please go to [us.hitrontech.com/coda56](https://us.hitrontech.com/coda56)

## Step 3: Connect to Your Home Network

- A** Connect the Orange Ethernet Cable into the Orange Ethernet Port on the back of the Cable Modem and the other end to the WAN Ethernet Port on your previously installed Router. If you do not have a router, connect the Ethernet cable to the Ethernet port on your computer.

## Step 4: Test Connection

- A** Make sure that your computer, tablet or cell phone is turned ON and is connected to your Router or Cable Modem via WiFi or Ethernet cable.
- Note: Please make sure you power cycle your Router BEFORE testing the connection.*
- B** Open a web browser. Your Cable Internet Service Provider may automatically redirect the browser to a special website. If not, please go to [www.google.com](https://www.google.com) to prove that your new cable modem is successfully set up.

## Step 5: Register Your Product
