⚠ CHARGING INSTRUCTION ⚡

1. Suggest charging only by connecting the mouse to the computer with the provided USB cable;
2. Don't charging the mouse by using a fast charger of mobile phone.
3. Don't charging the mouse by substandard or non-compliant power adapters.
4. Don't charging the mouse by over-voltage or over-current power adapters.
5. While charging, please keep away from high-temperature devices.
6. Pleas turn off the power when you are not use for long time.

The above instructions apply to the other devices with charging functions (Keyboards, mice, headphones, speakers, etc.)

·SPECIFICATIONS

Item: A5

Charging current: 0.5A±0.05A

Charging voltage: 5V±0.25V

Charging interface: Type-C

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are
designed to provide reasonable protection against harmful interference in a
residential installation. This equipment generates, uses and can radiate radio
frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to
radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this
equipment does cause harmful interference to radio or television reception, which can be determined by turning the
equipment off and on, the user is encouraged to try to correct the interference by one or more of the following
measures:
– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
–Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
–Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's
authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device
may not cause harmful interference, and (2) this device must accept any interference received, including interference
that may cause undesired operation.

WARRANTY CARD

Thank you for purchasing our company's products. If there are any quality issues with the products during the warranty period, please contact us. Please provide this warranty card when contacting us so that we can provide you with comprehensive after-sales service.
