

Infrared On/Off Control with Magnetic Detacher

Product life is extended by a replaceable battery

Key Specifications

Remote Control Activation

- Method: Physical contact against the Alarm Unit
- Function: Single-button press on the remote to toggle the alarm on or off

Cluster-Safe Design

- By requiring the remote to touch the unit, short-range button presses will only affect the intended Alarm Unit—even when multiple recoilers are installed side by side

Power Source

- Battery Type: Replaceable CR1620 3V (user-serviceable compartment)
- Service Life: 2 year battery life

Size: 60mm x 40mm x 19mm

Compatible products include: PBR-MA125, PBR-MA350, PBR-MA500, and PBR-MA510
