

Xvive wireless systems feature digital wireless technology that delivers incredible audio quality, simple setup, and is extremely reliable for any gigging musician. It delivers a full 20Hz-20 kHz frequency response, so you'll hear your tone in great detail with only 6ms of latency. This wireless system operates at 2.4GHz ISM band for crystal clear broadcasting ensuring the integrity of your signal on stage and covers 100 feet of range without any signal dropout. The Li-ion batteries help makes the wireless system environmentally friendly that can last up to 5 hours per charge.
