Frequently Asked Questions

1. What should I do if there is a problem with the Smartwatch
-Contact customer service personnel
-----Select factory settings in the settings and reconnect for use
-Open the tutorial in the settings, scan the QR code to find the answer

2. How to solve the problem of repeated disconnection of devices after Bluetooth connection?
--Keep the FitCloudPro app running continuously in the background to avoid the system automatically cleaning up the backend apps
--The optimal connection distance is within ten meters
--Avoid connecting multiple devices simultaneously

3. How to get SMS messages and other social notifications?
Note: This Smartwatch can not send message. Get Notifications
Steps:-In the App: Turn on all apps that need push notifications
On the Phone: Allow all permissions for the app and any apps that need notifications, including pop=ups, alerts, and landscape mode.
Please Note: Why is there no alert popup when the watch receives a message?
This is following the phone. The watch will only have the message alert popup when the phone also has It,

4. About data synchronization
All the measurement data of your smartwatch (including steps, sleep, blood oxygen, training)will be automatically synchronized to FitCloudPro App

5. How to avoid excessive power consumption?
Reduce screen brightness/enable power-saving mode
Turn off AOD clock/turn on silent mode
Shorten the duration of screen brightness/turn off full day heartrate monitoring

6.Can't get all contacts in the watch?
If the contact cannot have emoticons as well as symbols, in addition, the phone number must be preceded by a i in the contact, and there can be no brackets in the area code.

7. How to get SMS messages and other social notifications?
Note: This Smartwatch can not send messages.
Get Notifications Steps:
In the App: Turn on all apps that need push notifications.
On the Phone: Allow all permissions for the app and any apps that need notifications, including pop-ups, alerts, and landscape mode.

8. How to set call audio & media audio?
Scroll down on the homepage of the watch and a circle of function icons appears. Tap on the call icon, call audio and media audio will appear. turn off media audio, the watch will not receive the sound of music/video/voice playing from your cell phone.

---
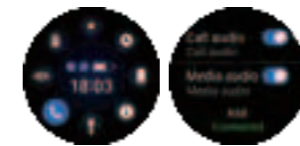

9. How to adjust the call volume?
On the call page, click on the volume marker in the upper right corner of your avatar to increase or decrease the volume.

10. Watch does not consistently stay connected to your phone?
Repeated connection and disconnection? A: This watch connects via Bluetooth.
Please keep within a 10m range when using it.
For Android, enable background permissions and keep the app open. For iOS, ensure the app is running in the background. If issues persist, feel free email anytime.
11. Why Step count is not accurate at all? Pushing a stroller it doesn't count any of your steps?

The smart watch determines activity levels using its gravity sensor and heart rate monitoring features. However, since pushing a stroller doesn't involve arm movement, the smartwatch is unable to accurately track the final step count in such cases.

Note:This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and(2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:The device has been evaluated to meet general RF exposure requirement.The device can be used in portable exposure condition without restriction.
