BATTERY
INDICATOR

CHARGING

Before using the DL Flower, fully charge the device using the USB-C charging cable and a standard charging brick. You will see the battery indicator lights flash when the battery is charging, and the battery indicator lights will represent the battery level. When the battery reaches 100%, the device is fully charged, and battery indicator lights will turn off. The device does not have pass-through functionality.

BATTERY INDICATOR

4 lights 75 - 100%
3 lights 50 - 75%
2 lights 25 - 50%
1 light 0 - 25% (Charge)

LOADING THE CHAMBER

With the device off, remove the mouthpiece. Fill the chamber to the top with finely ground material. It should fill the chamber completely, but not be packed too tightly. Depending on your material, 0.25 g should be enough. Replace the mouthpiece once the chamber is packed.

POWER ON/OFF

To power the device on or off, quickly press the button 5 times. The device will vibrate to let you know it is turning on or off. It will automatically start heating once it has been turned on.

TEMPERATURE SELECTION

The DL Flower has a temperature range of 320 to 430°F (160 - 221°C). Use the up and down buttons to select your preferred temperature in increments of 5 degrees. Once your preferred temperature is selected, the device will vibrate once it has hit that temperature. You can increase or decrease the temperature at any time during the session. The device will vibrate again to let you know the new temperature has been reached. You can convert the temperature read out to Celsius by holding the power button and the down button at the same time for 2 seconds.

VAPING SESSION TIMER

To adjust the session duration, hold down the power button for 2 seconds once the device is on. You can then adjust the session duration at any time between 3 minutes (180 seconds) to 5 minutes (300 seconds) in increments of 30 seconds. The display will only show the number of seconds for the session, please refer to the chart below for minutes.

180 - 3 minutes
210 - 3:30 minutes
240 - 4 minutes
270 - 4:30 minutes
300 - 5 minutes

VAPING

Once the device hits the selected temperature it will vibrate to let you know it is ready. At this point you can begin vaping. We recommend taking longer slower pulls to get the most out of the experience. Once you have finished the session, use the included stir tool to stir the material or discard it once it has been fully used. At the end of each session a count down timer will appear when there are 20 seconds left in the session. You can cancel the session at any time by pressing the power button 5 times and turning the device off.

CLEANING

To clean the main body and chamber, first remove the mouthpiece and set it aside. Next, you use the included cleaning brush to remove any build up in the chamber or surrounding area.

To disassemble the mouthpiece, start by firmly pressing against the mouthpiece so that it passes through the outer shell. Once the silicone housing has been removed, then remove the ceramic air path from the side of the housing. Finally, remove the silicone screen from the bottom of the housing, then use the cleaning brush to remove larger build up before soaking the pieces in alcohol for at least 30 minutes or until the build up is no longer there. Please allow all mouthpiece parts to fully dry before reassembly.

WARNINGS

Do not expose to extreme temperatures or direct sunlight. Do not drop the device or accessories. Do not drop or submerge in any liquid. Do not modify the electronics in any way. This device is intended for adults only. Do not sell or provide to minors. Keep all parts, concentrates, herbs, and liquids away from children and pets. This is not a medical device and is not intended to diagnose, treat, mitigate, cure, or prevent any ailment, disease, or other conditions. Consult a physician before use, especially if you suffer from heart disease or any other medical condition, or if you are pregnant or breastfeeding. Failure to follow any of these instructions could result in product damage, property damage, personal injury, and may void warranty. Visit PulsarShop.com for warranty information.
