soundcore Space One

USER MANUAL

Say hello to a more sustainable product

IT products are associated with a wide range of sustainability risks throughout their life cycle. Human rights violations are common in the factories. Harmful substances are used both in products and their manufacture. Products can often have a short lifespan because of poor ergonomics, low quality and when they are not able to be repaired or upgraded.

This product is a better choice. It meets all the criteria in TCO Certified, the world's most comprehensive sustainability certification for IT products. Thank you for making a responsible product choice, that help drive progress towards a more sustainable future!

Criteria in TCO Certified have a life-cycle perspective and balance environmental and social responsibility. Conformity is verified by independent and approved verifiers that specialize in IT products, social responsibility or other sustainability issues. Verification is done both before and after the certificate is issued, covering the entire validity period. The process also includes ensuring that corrective actions are implemented in all cases of factory non-conformities. And last but not least, to make sure that the certification and independent verification is accurate, both TCO Certified and the verifiers are reviewed regularly.

Want to know more?

Read information about TCO Certified, full criteria documents, news and updates at tcocertified.com. On the website you'll also find our Product Finder, which presents a complete, searchable listing of certified products.

APP

Google Play and the Google Play logo are trademarks of Google Inc.

Apple and the Apple logo are trademarks of Apple Inc.

Download the soundcore app to switch ambient sound modes, adjust EQ settings, update firmware, and explore more.
If your headphones cannot connect with the soundcore app, re-install the app or update it to the latest version in your mobile app store.

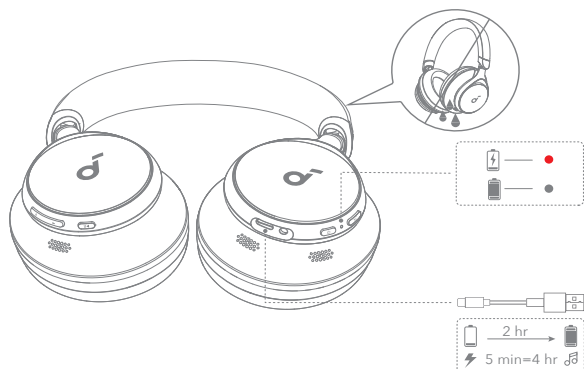

WEARING

Wear the headphones with the "L" logo on your left ear and "R" logo on your right ear. Adjust the length of the headband for a comfortable fit.

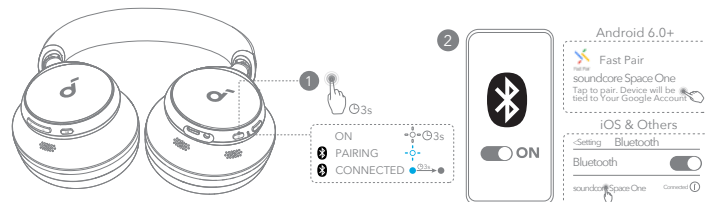

CHARGING

Fully dry the USB port before charging.
Do not turn on your headphones while charging.
Use a certified USB-C charging cable and charger to prevent any damage.

POWERING ON & PAIRING

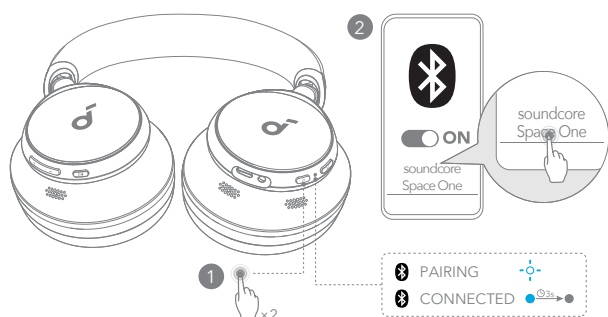

Auto Pairing: Press and hold the power button for 3 seconds to power on. The headphones will automatically enter Bluetooth pairing mode when connecting for the first time. Select "soundcore Space One" on your device's Bluetooth list to connect.

Google Fast Pairing: Enjoy instant pairing with your Android smartphone (running Android 6.0 and above) via Fast Pair enabled by Google.
To manually enter Bluetooth pairing mode, when the headphones are powered off, press and hold the power button for 5 seconds to pair.

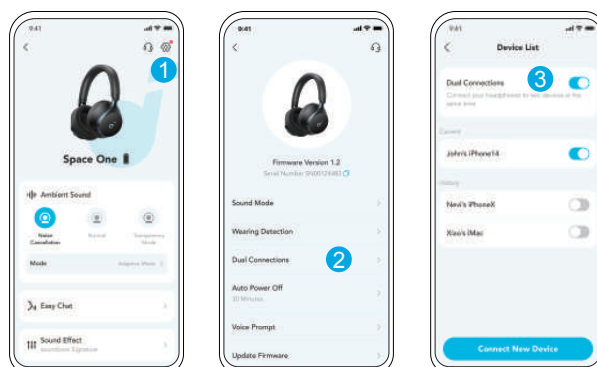

DUAL CONNECTIONS

The headphones can connect with two devices at the same time.
When already connected to one device, press the power button twice to pair with another device.

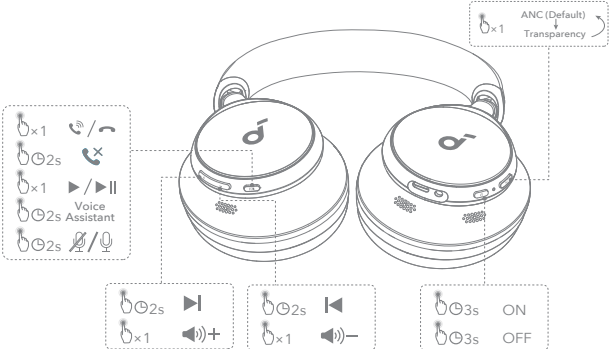

DUAL CONNECTIONS

In the soundcore app, go to settings and select **Dual Connections > Enable Dual Connections > Connect New Device**.

BUTTON CONTROLS

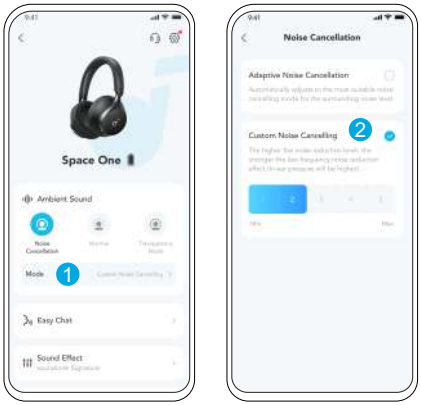

* You can enable Normal mode in the soundcore app.

BUTTON CONTROLS

	Switch ambient sound modes (ANC / Transparency)		Press once
	Power on / off		Press and hold for 3 seconds
	Play / Pause		Press once
	Next track		Press and hold for 2 seconds
	Previous track		Press and hold for 2 seconds
	Volume up / down		Press once
	Answer / End a call		Press once
	Reject a call		Press and hold for 2 seconds
	Mute / Restore the microphone		Press and hold for 2 seconds
	Activate Voice Assistant		Press and hold for 2 seconds

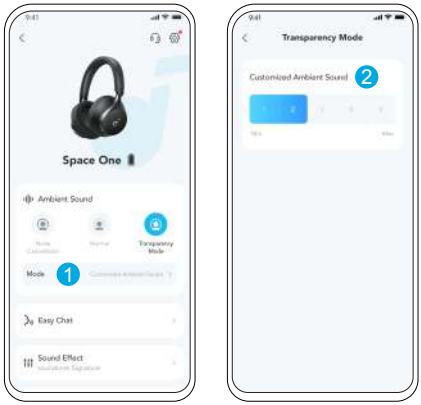

NOISE CANCELLATION

To reduce ambient noise, switch to noise cancellation (default) via the NC button and customize it in the soundcore app.

- Adaptive Noise Cancelling: Adjust the level of noise cancellation automatically for various scenarios.
- Custom Noise Cancelling: Set the level of noise cancellation manually.

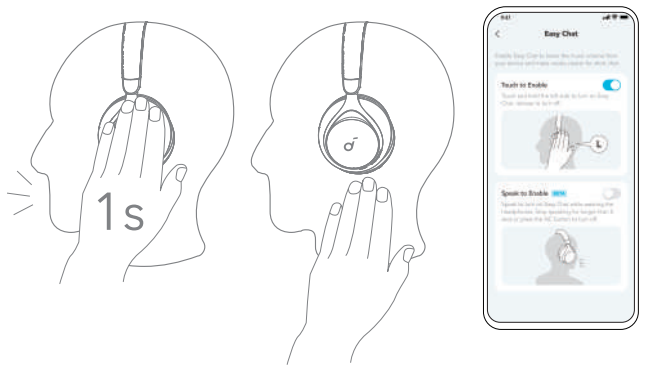

TRANSPARENCY

To stay aware of your surroundings while listening to music, switch to transparency mode via the NC button and customize it in the soundcore app.

- Custom Transparency Mode: Set the level of transparency manually.

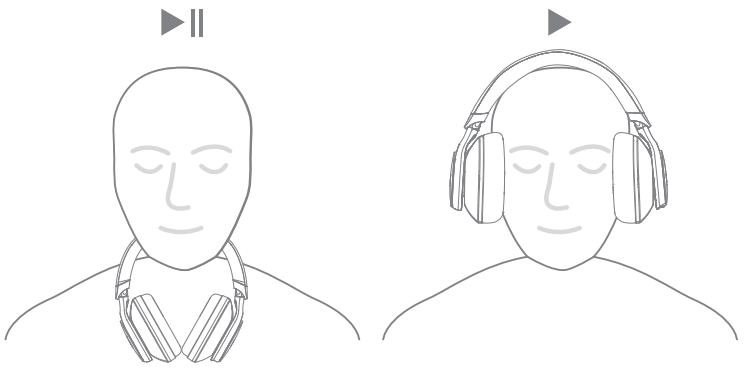

EASY CHAT

Easy Chat mode automatically lowers the volume of music and amplifies the voice of the person you're talking to so that you can communicate without taking the headphones off.

- To activate Easy Chat, hold the left panel for 1 second until you hear a notification sound. Turn off this mode by releasing your hand. (Enabled in app)
- Easy Chat will automatically turn on when you're talking, and off when you stop talking for 5 seconds. (Beta version is enabled in app)

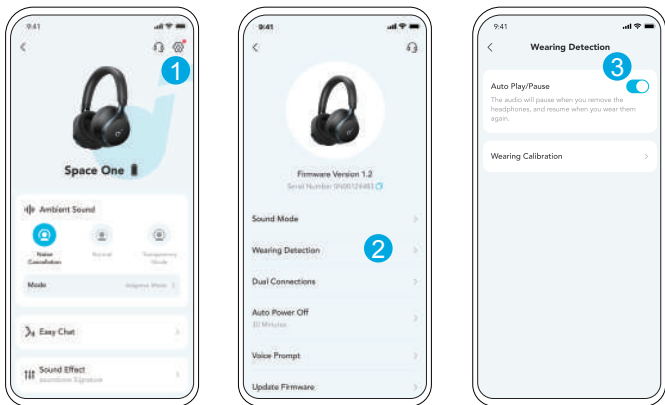

WEARING DETECTION

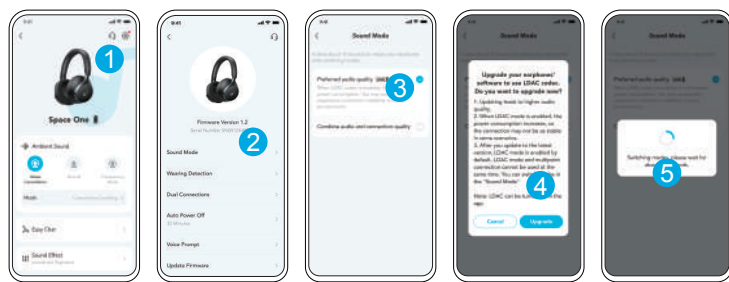

Auto-pause music playback when removing the headphones, wear them again to resume.

*You can enable Wearing Detection in the soundcore app.

WEARING DETECTION

LDAC

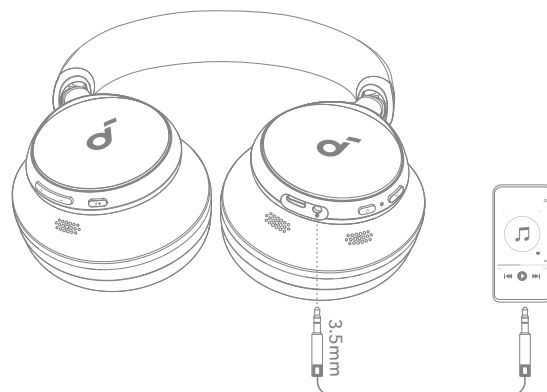

Enable LDAC in the soundcore app for higher-quality audio.
*Only available on devices powered by Android 8.0 or later.

LDAC

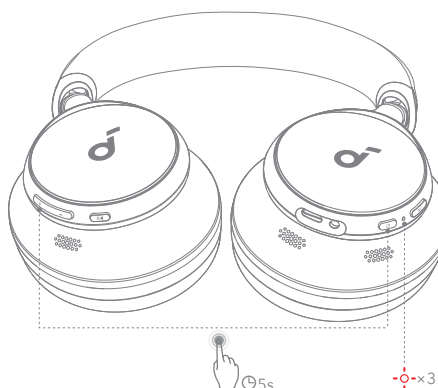

- Use devices powered by Android 8.0 or later to experience LDAC quality sound.
 - LDAC provides higher quality sound, increases power consumption, and reduces playtime.
 - Enable LDAC in a low-interference environment to ensure a stable Bluetooth connection.
1. Go to settings in the soundcore app.
 2. Click on "Sound Mode".
 3. Select "Preferred audio quality" to switch to LDAC codec.
 4. You will be notified that the headphones do not support LDAC when connected to two devices. Select "Turn on" to continue.
 5. It takes about 10 seconds to switch audio codecs. You may be requested to update the headphones' firmware if available.

AUX WIRED LISTENING

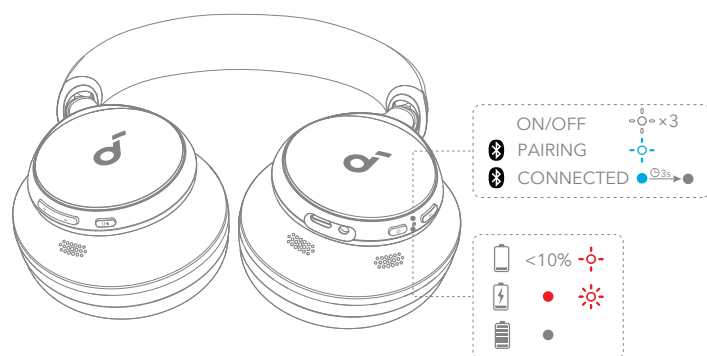

Play audio on an external device by plugging in a 3.5mm AUX cable. Wired listening will automatically turn off Bluetooth mode.

RESET

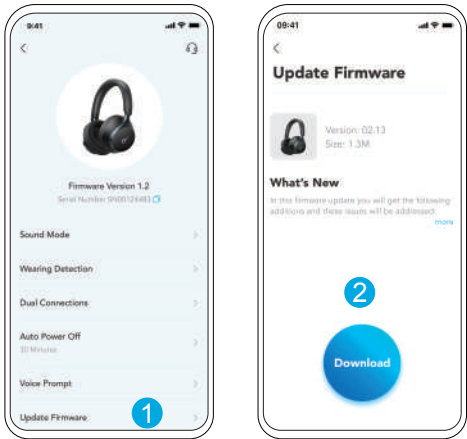

You might need to reset your headphones if you experience connectivity or function issues. Delete the pairing history from your Bluetooth device first. Press and hold the volume up and power button simultaneously for 5 seconds until the LED flashes red three times.

LED LIGHT GUIDE

Flashing white	
Flashing red	
Flashing blue	
Steady blue	
Light off	

You will be informed once the new version of firmware is detected when you connect the headphones with the app. Ensure the headphones are powered on and connected to a device until the firmware update is complete. During the update, avoid any usage and ensure stable access to the internet.

Specifications are subject to change without notice.

Input	5 V --- 0,58 A
Rated output power	10mW
Battery capacity	580mAh
Charging time	2 hours
Playtime (with ANC off)	Up to 55 hours
Playtime (with ANC on)	Up to 40 hours
Driver size	40mm
Frequency response	20Hz - 20kHz
Impedance	16Ω
Bluetooth version	5.3
Bluetooth range	15m / 49ft

APP

Google Play and the Google Play logo are trademarks of Google Inc.

Apple and the Apple logo are trademarks of Apple Inc.

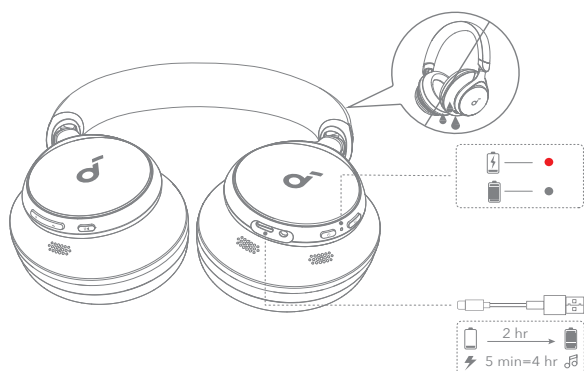

Scarica l'app soundcore per cambiare le modalità di suono ambientale, regolare le impostazioni dell'EQ, aggiornare il firmware ed esplorare di più.

Se le tue cuffie non riescono a connettersi con l'app soundcore, reinstalla l'app o aggiornala all'ultima versione disponibile sul tuo negozio di app mobile.

CARICAMENTO

Asciugare completamente la porta USB prima di caricare. Non accendere le cuffie durante la ricarica. Utilizzare un cavo di ricarica USB-C e un caricabatterie USB-C certificati per evitare danni.

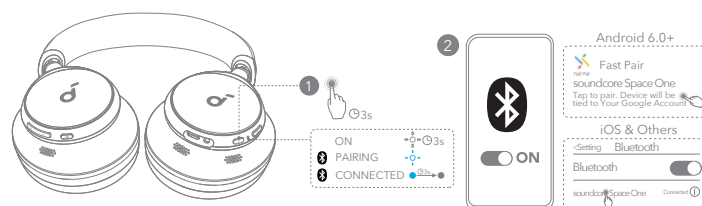

USO

Indossare le cuffie con il logo "L" sull'orecchio sinistro e il logo "R" sull'orecchio destro. Regolare la lunghezza della fascia per una vestibilità comoda.

ACCENSIONE E ABBINAMENTO

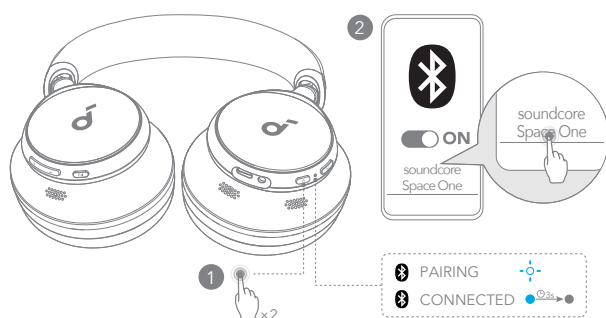

Accoppiamento automatico: premere e tenere premuto il pulsante di accensione per 3 secondi per accendere. Le cuffie entreranno automaticamente in modalità di accoppiamento Bluetooth quando si conatteranno per la prima volta. Seleziona "soundcore Space One" dalla lista Bluetooth del tuo dispositivo per connetterti.

Google Fast Pairing: goditi l'accoppiamento istantaneo con il tuo smartphone Android (con Android 6.0 o versioni successive) tramite Fast Pair abilitato da Google.

Per accedere manualmente alla modalità di accoppiamento Bluetooth, quando le cuffie sono spente, premere e tenere premuto il pulsante di accensione per 5 secondi per accoppiare.

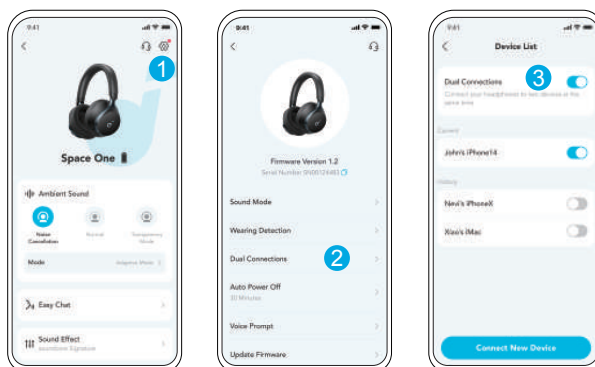

DOPPIE CONNESSIONI

Le cuffie possono connettersi con due dispositivi allo stesso tempo. Una volta stabilita la connessione al primo dispositivo, premere due volte il pulsante di accensione per eseguire l'abbinamento a un altro dispositivo.

DOPPIE CONNESSIONI

Nell'app soundcore, vai su Impostazioni e seleziona Connessioni Duali > Abilita Connessioni Duali > Connetti Nuovo Dispositivo.

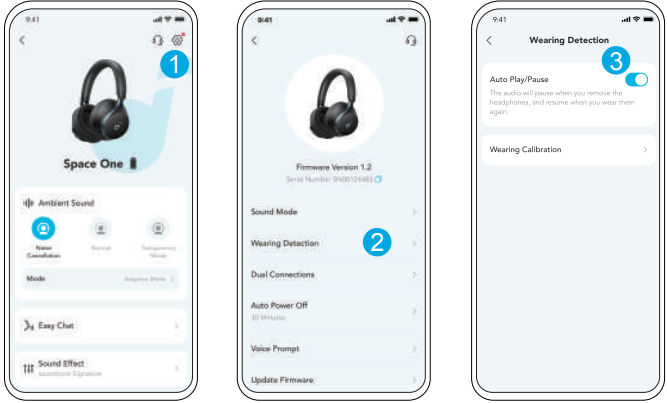

COMANDI PULSANTI

TRASPARENZA

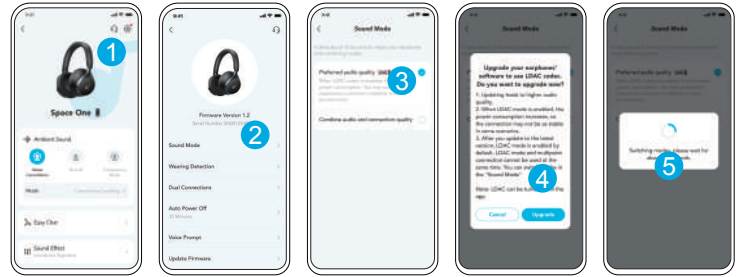

- ## RILEVAMENTO USO

RILEVAMENTO USO

LDAC

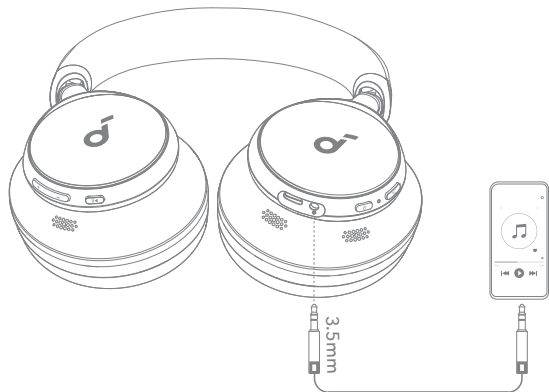

Abilita LDAC nell'app Soundcore per un audio di qualità superiore.
Disponibile solo su dispositivi con Android 8.0 o versioni successive.

LDAC

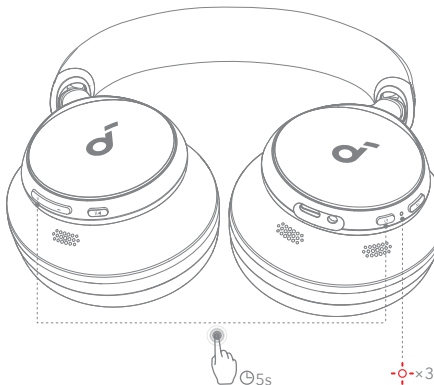

- Utilizzare dispositivi con Android 8.0 o versioni successive per provare l'audio di qualità LDAC.
 - LDAC fornisce un audio di qualità superiore, aumenta il consumo energetico e riduce il tempo di riproduzione.
 - Abilita LDAC in un ambiente a bassa interferenza per garantire una connessione Bluetooth stabile.
- Vai alle impostazioni nell'app soundcore.
 - Fai clic su "Modalità audio".
 - Seleziona "Preferred audio quality" per passare al codec LDAC.
 - L'utente verrà informato che le cuffie non supportano LDAC quando sono collegate a due dispositivi. Seleziona "Accensione" per continuare.
 - La modifica dei codec audio richiede circa 10 secondi. Potrebbe essere richiesto di aggiornare il firmware delle cuffie, in caso di aggiornamento disponibile.

ASCOLTO CABLATO

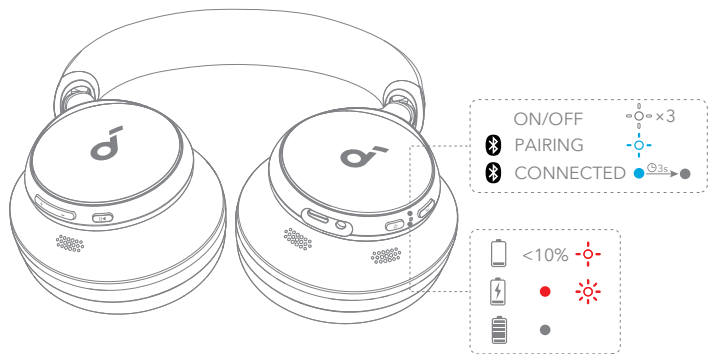

Consente di riprodurre l'audio su un dispositivo esterno inserendo un cavo AUX da 3,5 mm. La modalità di ascolto cablato disattiverà automaticamente la modalità Bluetooth.

RESET

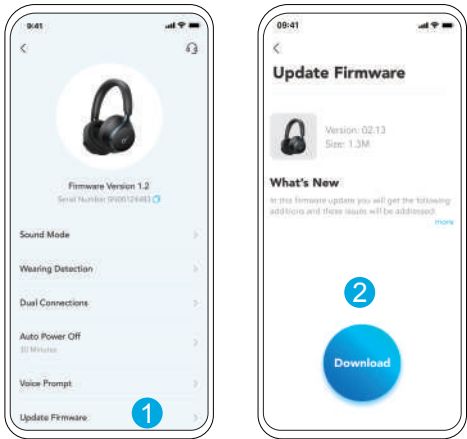

Potrebbe essere necessario ripristinare le cuffie qualora si riscontrino problemi di connettività o di funzionamento. Cancella prima la cronologia di abbinamento dal dispositivo Bluetooth. Premere e tenere premuti contemporaneamente il pulsante del volume su e il pulsante di accensione per 5 secondi fino a quando il LED lampeggia rosso tre volte.

GUIDA LUCE LED

•	Bianco lampeggiante
•	Rosso lampeggiante
•	Blu lampeggiante
•	Blu fisso
•	Spia spenta

L'utente verrà informato della nuova versione del firmware rilevata al momento del collegamento delle cuffie all'app. Assicurarsi che le cuffie siano accese e connesse a un dispositivo fino al completamento dell'aggiornamento del firmware. Durante l'aggiornamento, evitare qualsiasi utilizzo e garantire un accesso stabile a Internet.

Le specifiche sono soggette a modifiche senza preavviso.

Ingresso	5 V $\overline{\text{---}}$ 0.58 A
