Safety Precautions

- Always ensure the ramps are placed on a flat, stable surface.
- Do not exceed the maximum load capacity of 11,000 lbs.
- Avoid placing ramps in areas with heavy vehicular traffic or where sharp objects may be present.
- Inspect the ramps regularly for any signs of wear or damage.
- Ensure the connectors are securely interlocked to prevent disconnection during use.

Installation Instructions

1. **Position the Ramps:** Place the ramps on a flat surface where cables need to be protected.
2. **Insert the Cables:** Lift the top cover and insert the cables, cords, or hoses into the single-channel groove.
3. **Close the Cover:** Securely close the top cover to ensure cables are concealed. Connect Additional Units (if needed): Align the male and female connectors and interlock them to extend the ramp coverage.
4. **Check Stability:** Ensure the ramps are securely placed and stable before use.

Usage Guidelines

- Ensure cables do not exceed the maximum diameter of 10mm.
- Regularly check for proper placement and stability of the ramps.
- Avoid dragging or dropping heavy objects directly onto the ramps.
- Use in areas with pedestrian traffic or light vehicles only.

Maintenance and Storage

- **Cleaning:** Wipe the ramps with a damp cloth to remove dirt and debris.
- **Inspection:** Regularly check for signs of wear or damage, and replace if necessary.
- **Storage:** Store in a cool, dry place away from direct sunlight when not in use.

California Prop 65 Warning

⚠️ WARNING:

This product may expose you to chemicals, which is known to the state of California to cause cancer, birth defects and other reproductive harm. Do not ingest.
