

160*21 Omm

Nilight Rectangular Trailer Light Kit (12V)

Wiring Instruction

If you have existing trailer harness, just connect trailer lights with the harness by colors. If not, you can connect the female and male harness we provided, and then run wires at two sides as follow:

Hardware Mounting Tips

•Wire Nut

• Self-tapping screws

•Wire Clip

• Splice connector

•Studs and nuts

•License plate bracket
