CONTROLLER REMOVAL

RECYCLE YOUR ELECTRONICS - BE ENVIRONMENTALLY FRIENDLY:

Electronic products are made from Toxic Materials. Because old electronic devices contain toxic substances such as lead, mercury, cadmium and chromium, proper processing is essential to ensure that these materials are not released into the environment.

See Owner's Guide for Complete Operation.

Connecting Your Grill To Bluetooth® or Wi-Fi Network

To connect your WEBER SEARWOOD grill via Bluetooth® or your local Wi-Fi network, follow these steps:

TIP: WEBER recommends connecting your grill to your local Wi-Fi network for easy, fast software updates.

NOTE: WEBER recommends that your smartphone be running the latest version of its operating system before attempting to connect your grill to Bluetooth® or your Wi-Fi network.

1. Verify that your smartphone is connected to Bluetooth® or your local Wi-Fi network.
2. From your smartphone, download the WEBER CONNECT app from the App Store on Apple smartphones, or the Play Store on Android smartphones.
3. Open the WEBER CONNECT app and follow the in-app instructions for connecting to your SEARWOOD grill. When paired, your digital controller will automatically update your software in the background each time the grill is connected.

NOTE: In order to successfully connect your smartphone to your grill via a local Wi-Fi network, first make sure your grill is paired via Bluetooth® and that your grill is within range of your Wi-Fi router. If your attempts to connect have been unsuccessful, try moving the grill within range of the Wi-Fi router or adding a signal extender for a stronger signal. Be sure to locate the grill at least 2 feet (61 cm) away from any combustible materials and flammable liquids.

⚠ WARNING: Make sure all parts are assembled and hardware is fully tightened before operating the grill. Your actions, if you fail to follow this product warning, may cause a fire, an explosion, or structural failure resulting in serious personal injury or death as well as damage to property.
