

H-180 HARD CASE INSTRUCTION MANUAL

STEP 1

Lay out the items in the case

NOTE: Leave a minimum of a 1 cube wall between each item and around the edge of the case.

STEP 2

Put toothpicks or matches in the corners of each item.

NOTE: You can also use chalk to mark the edges of the items.

STEP 3

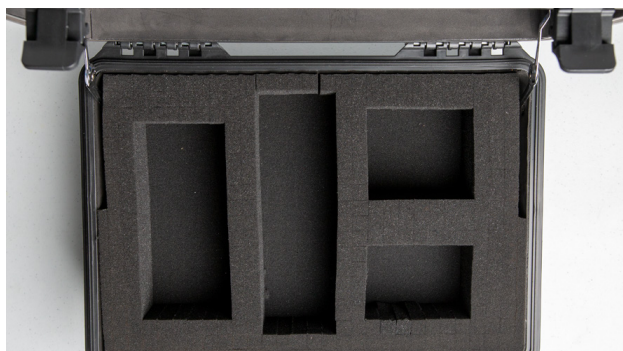

Loosen the foam by pushing it in, then pull it out of the case.

STEP 4

Continue removing the cubes for each of the items.

STEP 5

For deeper items, remove the foam the same way as above, marking the object's size using toothpicks/-matches in the lower layer of foam.

NOTE: Remove the top layer of foam after placing the toothpicks/matches.

STEP 6

After cutting the deeper foam, remove the whole foam block, and cut it in half.

STEP 7

Place the foam back into the cut foam "cut side" down.

STEP 8

Replace the top layer of foam and place the items into the case.
