# Cautions

1 The feeder only supports 2 4GHz-WIFI with a password setting, please be aware.

It is recommended to use 5-12mm pet food, with any shape. Do not place freeze-dried, wet food and other

types of food. 3. Please place the device correctly; in order to prevent pets from falling or knocking over the device, it is recommended to place it in a corner or against a wall 4. Please regularly replace the desiccant in the storage box and other items with moisture-proof function. If it is

(the indicator light does not light, the operation does Please clean the feeding bowl regularly to avoi breeding of bacteria. If you need to clean it, please dry

Ensure that the voltage used is consistent with the power parameters indicated by the machine.

plug is damaged, please stop using it immediately.

Please read the warning carefully and follow the cautions, otherwise you will be responsible for the

Cleaning and recycling

1. Do not immerse the machine in water or other inquos. 2. Do not wash the feeder with water to avoid damage to the components. It is recommended to use a dry rag or a neutral detergent that is harmless to pets. If you need to clean the food barrel, please wipe it dry before

5. Avoid heavy impact on the machine

(the indicator light does not light, the operation does not respond, etc.). What's the matter? 4: Check whether the power cord is connected correctly, whether the power adapter is intact, whether the power socket is powered on; it is recommended to use a standard 5V 1A power adapter to connect the attached TYPE-C power cord to reconnect or use 4 AA batteries for convey exists. for power supply.

Q: Why is the WIFI connection unsuccessful? Do not put all the materials other than pet food into the food barrel, so as to avoid abnormal use of the tood barret, so as to avoid abnormal use of the equipment, food deterioration, etc., which may endanger the health of the pet. 8. The product power cord should be placed as concealed as possible to prevent pets from biting, scratching and A: It may be in 5GHz-WIEI data transmission mode: the feeder only supports 2.4GHz-WIFI data connection with password setting, it is recommended to reconne WIFI to 2.4GHz.

damaging it.

9. The feeder is powered off for a long time, and it may be A: The red indicator light of the timed version flashes and necessary to reset the time or feeding plan after the 2 short beeps every 30 minutes, the red indicator light of the Smart version and the Cute version is always o

power is turned on again.

10. This equipment is not recommended for young pets within three months.

1. Children do not use alone.

2. Must be equipped with a standard power socket and used separately from other electrical appliances. Q: Why does the App prompt that there is a shortage of

A: Please replenish food in time. 2: Why does the feeder fail to deliver food 14. Do not pull the power cord forcibly, if the power cord or

: 1. There is no food in the food barrel, please add it

 The paddles inside the food barrel are loose please. The paddles inside the food barrel are loose, please re-install and adjust the paddles.
 The food barrel is not installed in place, just align the bottom shaft with the lower buckle and place it.
 The food particles are large, it is recommended to replace the 5-12mm pet food, the food is too light or

easy to crush, please do not use freeze-drying. ommended to replace the dry pet food.

6. Too many food servings cause the food outlet to b blocked; it is recommended to reset and reduce the food servings or wait for the pet to finish the external food, the stuck food will fall by itself.

7. Use a dry rag to clean up food residues in the food barrel and internal food outlets, paddles, etc.

### 感谢您购买本产品。在使用派可为乖乖吃饭喂食器前,请先仔细阅读并妥善保管本使用说明书! 因产品技术不断更新升级,本册说明仅供参考,相关信息如有变更,恕不另行通知,敬请谅解!

Thank you for purchasing this product, before using the Pakeway Automatic Pet Feeder User's Manual please read this manual carefully and keep it properly for future use! the relevant information if there is a change, please understand that we will not notify you again! This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
