

Anti-Aging Cream

Introduction

Erase the appearance of visible aging in minutes with Lift. Our fast-acting line correcting cream swiftly reduces the appearance of fine lines and imperfections with its unique formulation that not only firms and smooths the skin but does so in minutes, delivering visible anti-aging results. In the "I want it now world," Lift delivers a longer lasting experience enhanced by its long-lasting efficacy and speed.

The most obvious sign of aging takes place in our face. Wrinkles, fine lines, and imperfections sneak up on us when we least expect it. These signs of aging can come from diet, lifestyle, environmental aging aggressors and so many other places. Day after day these fine lines and wrinkles form without you being aware of the damage that repetition is causing your complexion.

Did you know that 90% of people use face filters for images? Traditionally, people have relied on skincare to help them age gracefully, but some regimens are ineffective. What is your solution if you haven't taken care of your complexion, or your skincare hasn't lived up to its promise?

Lift is designed to reduce the appearance of fine lines and wrinkles, brighten your complexion, and achieve a more youthful look and feel. Give your face the lift of a lifetime with this long-lasting, fast-acting formula! With Lift, reclaim the look and feel of your beautiful, youthful skin and say goodbye to damaged skin caused by natural aging and harmful UV rays.

Embrace your age and your youth with LIFT

Key Ingredients in LIFT may:

- Instantly smooth the appearance of fine lines & wrinkles
- Firm and tighten skin for an age-defying appearance
- Lift and restore youthful appearance for 6-8 hours
- Provide Instant, long-lasting results
- Work on all skin types
- Reduce the appearance of aging temporarily

What Makes Lift Unique?

With so many personal care cosmetic products on the market, what sets Lift apart? This exclusive formula immediately penetrates the surface of the skin by contracting the cells, making them more flexible and closer to each other, creating an almost immediate lifting effect that will remain for 6-8 hours – making the skin smooth and youthful.

These quick, yet durable benefits are due to Lift's exclusive SomaTech formula that contains two key ingredients: Reproage™, a peptide that helps renew the skin for a youthful, smooth complexion; and hyaluronic acid, which has been demonstrated to:

- Reduce skin roughness
- Increase the skin's natural radiance
- Increase resistance to the effects of aging

What is SomaTech®?

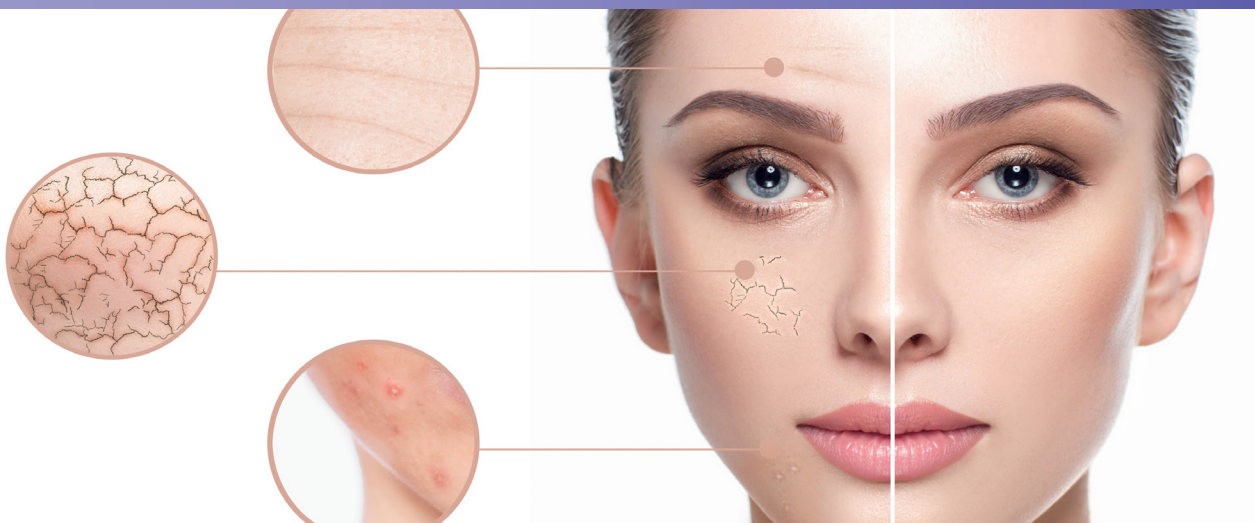

SomaTech® is New U Life's proprietary blend of ingredients designed to improve your body's youthful function to challenge the premature signs of aging through supporting youthful hormone production, fighting hormone disruptors, and improving hormone communication as well as nutrient uptake. This translates into your body's systems functioning at their optimal levels to provide you with transformational benefits.

SomaTech Technology in LIFT:

Several ingredients in Lift combine to formulate SomaTech, New U Life's proprietary technology used to support the body's optimal function through the healthy production of hormones to bring about age-defying benefits. In Lift, SomaTech consists of:

Hyaluronic Acid: Hyaluronic acid is a key ingredient in LIFT and is well-known for its ability to retain moisture. It has an incredible capacity to hold water, making it a popular ingredient in skincare products. Applied topically with LIFT, it helps hydrate the skin, making it appear plump, smooth, and more youthful.

Acetyl hexapeptide-8 (Argireline): Acetyl hexapeptide-8 (Argireline) is a synthetic peptide that reduces the impact of certain neurotransmitters on muscle cells. This minimizes the appearance of fine lines and wrinkles as it works to defy the aging effects of unbalanced hormones in the skin.

Directions for Use:

For the best results, begin by cleansing your face prior to application. Then use Untypical Hydrate to moisten skin (or any water-based moisturizer). Next, pump a pea-sized amount of Untypical™ Lift onto your fingertip. Using your fingertip, lightly tap a thin layer of Lift onto desired areas (do not rub in). Once applied, remain expressionless for 1-2 minutes while the product dries to achieve optimal results. Fan area to speed up drying time and results.

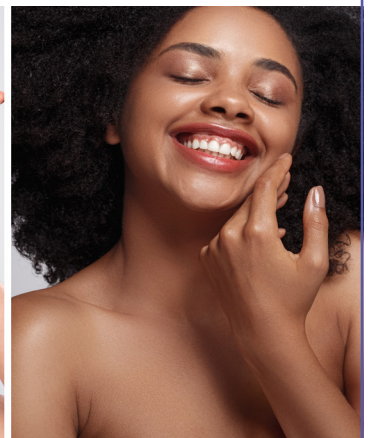

Remember, a little bit goes a long way! If you experience a white film, you've used too much. Lightly tap the edges with a damp cloth or use your wet finger to feather the product further on the skin.

Did You Know?

Specific movements, behaviors, or lifestyle choices can heighten the prevalence and visibility of fine lines and wrinkles. Here are some key elements to steer clear of in your pursuit to counteract the signs of aging and maintain a youthful appearance. The term metabolic is often used to refer specifically to the breakdown of food and its transformation into energy. Metabolism consists of anabolism (the buildup of substances) and catabolism (the breakdown of substances).

- Exfoliating skin with warm to hot water
- Smoking
- Rapid weight gain or loss
- Sucking on a straw
- Pursing your lips or frowning
- Drinking excessive amounts of alcohol
- Furrowing your brow
- Sleeping on your stomach or side
- UV radiation exposure on your skin
- Squinting your eyes intensely

Storage Instructions:

Store in a cool, dry place. This product does not require refrigeration.

Ingredients

Purified Water, Sodium Silicate, Magnesium Aluminum Silicate, Hyaluronic Acid, Acetyl Hexapeptide-8, CI 77489 (Iron Oxide), Phenoxyethanol, Ethylhexylglycerin

Complementary Products

SomaDerm®

SomaDerm® is your key to optimizing systemic hormone health throughout your body, daily! SomaDerm is a painless, simple solution to achieve the balance you've been looking for.

Hydrate

UNTYPICAL™ Hydrate Hydrating Mist is specifically formulated to provide your skin with an instant boost of hydration, leaving it looking and feeling revitalized. Infused with a blend of nourishing ingredients, Hydrate Hydrating Mist is designed to soothe and calm your skin while delivering essential hydration.

SomaNight®

SomaNight's exclusive Tri-Collagen Nano Peptide ingredient blend promotes healthy insulin-like growth factor 1 (IGF-1) production and helps optimize human growth hormone (HGH) utilization. The result? Healthier and more youthful tissue function all throughout the body. What does that mean for you? Simply put, better rest, better recovery, and better hormone health that empowers you to rise to meet the demands of your day!
