WARNING

People with very sensitive skin may notice some irritation after wearing the **Time to Get Tiny Watch** for extended periods of time. The skin may become irritated when moisture, sweat, soap or other irritants get trapped under the wristband and are left in contact with the skin. To prevent this, we suggest children remove the watch before going to bed for the night, take the watch off if it's feeling uncomfortable and keep their wrist and the band clean and dry.

In addition, wearing the watch too tightly may also cause irritation. Make sure the fit is good tight enough so the watch stays in place but not so tight that it's uncomfortable. If you notice any redness, swelling or other irritation, you may want to consult a doctor before wearing the watch again.
