Overview...

WiFi Indicator

Network configuration mode: Blinks Quickly

Wi-Fi Connection is available: Red Light

Power Colour Switch

Short Press to turn on the lamp

Short Press again to change the colour

Long press to turn off the lamp

WiFi BUTTON

Hold and press this button for 5 seconds
to enter network configuration mode.

Getting started...

- 1 Download the SMART LIFE App from Google Play or the Apple Store.
- 2 Open the App and register an account to log in.

Connect the device to the internet

- 1 Turn the Smart Mood Light 'on' by pressing the power button.
Ensure all Wi-Fi device(s) are connected to your home Wi-Fi network.

**IMPORTANT: 2.4 GHz b/g/n network's are compatible.
5GHz networks are not compatible.**

- 2 Tap the add icon "+" on the top right and select "lighting devices" from the device type list.

OPERATING INSTRUCTIONS

3

To enable Wi-Fi configuration mode: hold the Wi-Fi Button for 5 seconds and release until the indicator light is flashing.

Wi-Fi Button

4

Follow the steps on the App
Enter the password of the Wi-Fi Network that is connected to your device.
Once complete it will start to register the device on the cloud.
Once the light is successfully added to the device you can control it within the App

OPERATING INSTRUCTIONS

5

Once the light is connected you can control it with the App using Amazon Alexa and Google Assistant.

The App allows you to change the lamp colour and set a timer for the lamp. You can also share it with your family and rename it.

Connecting the device to Amazon Alexa

1

Open Amazon Alexa App
Tap Skill on the menu to go to the Amazon Skill Store.

2

Search the skill name "Smart Life" in the search bar.

Connecting the device to Amazon Alexa (continued)

3

Enable the skill and type in your login information from the App account to link the account.

4

Tap "Discover Devices" to sync your devices to Alexa.

After 20 seconds, the device will be discovered (connected) and Alexa will tell you "I found xxx devices", then you control your device using your voice through Amazon Alexa devices.

The following voice commands are supported:

Alexa, turn on/off "xxx".

Alexa, set the "xxx" to [colour].

Alexa, set the "xxx" to [percentage].

Alexa, set the brightness of "xxx" [percentage].

Connecting the device to Google Assistant

1

Open the Google Home App and tap "Home Control" on the menu.
Tap the add icon "+" on the bottom right corner.

2

Find "Smart Life" from the list.

3

Type in your account information from the App account to link the account.

Connecting the device to Google Assistant

4

Once the device is linked successfully, you can assign the devices to rooms, then your devices will be listed in the Home Control list.

The following voice commands are supported:

Hey, Google, turn on/off "xxx".

Hey, Google, set the "xxx" to [colour].

Hey Google, set the "xxx" to [percentage].

Hey Google, set the brightness of "xxx" [percentage].
