

5.25in Front Bay Mount Dual Fan Hard Drive Cooler

Product ID: FANDRIVE2BK

This dual fan hard drive cooler provides maximum airflow for hot-running hard drives, preventing overheating failures and extending the life of the drive.

The fan unit mounts in any free 5.25 inch half height drive bay, and the hard drive is mounted directly behind it using the supplied 3.5 inch to 5.25 inch adapter brackets; the fans draw fresh external air into the case through a removable, cleanable filter and blows the cooler air over the surface of the hard drive - a cost-effective solution that can help extend the life of hot running 7200 RPM, 10,000, or 15,000 RPM IDE and SCSI hard drives in servers or workstations.

Certifications, Reports and Compatibility

Applications

- Keep a high performance hard drive running cooler
- Turn an unused 5.25in bay into a hard drive cooler or simply an additional air intake

Features

- Fits into a standard 5.25in front drive bay
- Dual 40mm cooling fans

- Cleanable air filter
- Inline LP4 Molex power connectors

Hardware

Warranty	2 Years
Fan(s)	Yes
Fans	2 - 40 mm
Number of Drives	1
Drive Size	3.5in
Fan Bearing Type	Sleeve Bearing
Filter Type	Mesh

Performance

Air Flow Rate	4.17 CFM
Noise Level	36 dBA
MTBF	15,000 hours
Fan RPM	5000 +/- 10%

Connector(s)

Connector Type(s)	1 - LP4 (4 pin; Large Drive Power)
-------------------	------------------------------------

Physical Characteristics

Color	Black
Material	Plastic
Weight of Product	7.2 oz [204 g]

Packaging Information

Package Length	7.2 in [18.2 cm]
Package Width	1.9 in [48 mm]
Package Height	7.2 in [18.3 cm]

Shipping (Package) Weight	0.6 lb [0.2 kg]
------------------------------	-----------------

What's in the Box

Included in Package	1 - Hard Drive Cooler
	1 - Mounting Bracket
	1 - Mounting Screw kit

**Warranty
Information**

Warranty	2 Years
