### Certifications

## Notes & Details

Display your grab-and-go items in style while keeping them chilled with this Avantco BMAC-36HC 36" black vertical air curtain merchandiser. Perfect for convenience stores, groceries, cafes, and other operations, this merchandiser refrigerator is designed to display! Whether you are selling cold, bottled drinks or pre-packaged grab-and-go snacks, this merchandiser gives you the opportunity to let your products sell themselves.

This merchandiser features bright, cool LED lighting to show off your products at their best to draw attention. For outstanding durability, this sleek black air curtain merchandiser is made of coated steel inside and out, and the partial glass sides allow increased visibility to make for a more attractive presentation. In addition to the bottom shelf, it comes with 3 adjustable coated steel shelves so you can organize and load your air curtain merchandiser with confidence. Since the shelves are adjustable, you can be sure that they'll accommodate changing merchandise and menus.

This unit operates using R290, a specialized refrigerant that has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an environmentally responsible choice for your business. However, not only do you get the satisfaction of using an environmentally friendly unit, this merchandiser is also characterized by its low energy consumption, which will save you money. Its low noise emission is another huge benefit which your guests and staff will certainly appreciate. This feature makes it perfect for college campus cafes or libraries so students can grab a quick snack, but not be bothered by the hum of machinery. To help save even more energy during off hours, this model also comes with a night cover.

This air curtain merchandiser has digital controls with a temperature range of 33-41 degrees Fahrenheit. These controls make it easy to keep an eye on the interior temperature, and are conveniently located on the bottom front of the machine for easy access. This unit has an automatic hot gas defrost feature, so your staff won't need to set aside valuable time to schedule a defrost. When it comes time for cleaning or maintenance, simply roll the unit away from the wall, using the provided casters that add convenient mobility to the merchandiser. This unit requires a 110V electrical connection for operation.
