Before using the device, review and download the latest Quick Start Guide at <https://www.hihonor.com/uk/support/>.

Safety Information

- To prevent possible hearing damage, do not listen at a high volume for long periods.
- Ideal temperatures: 0°C to 35°C for operating, -20°C to +45°C for storage.
- Avoid using the device in a dusty, damp, or dirty place, or near a magnetic field.
- Recommend using HONOR power adapters specifically designed for your device, or any other power adapters meeting the requirements of Clause Q.1 in IEC 62368-1/EN 62368-1.
- When charging, an adapter should be plugged into a socket nearby and easily accessible.
- Unplug the charger from the electric socket and from the device when not in use.
- Please consult your doctor and the device manufacturer to determine if using your device may interfere with the operation of your medical device.
- Do not attempt to replace the battery yourself — you may damage the battery, which could cause overheating, fire, and injury. The built-in battery in your device should be serviced by Honor or an authorised service provider.
- Keep the battery away from fire, excessive heat, and direct sunlight. Do not place it on or in heating devices. Do not disassemble, modify, throw, or squeeze it. Do not insert foreign objects into it, submerge it in liquids, or expose it to external force or pressure, as this may cause it to leak, overheat, catch fire, or even explode.

Disposal and Recycling Information

■ The symbol on the product, battery, literature, or packaging means that the products and batteries should be taken to separate waste collection points designated by local authorities at the end of the lifespan. This will ensure that EEE waste is recycled and treated in a manner that conserves valuable materials and protects human health and the environment. For more information, please contact your local authorities, retailer, or household waste disposal service or visit the website <https://www.hihonor.com/>.

RF Exposure Information

For the countries that adopt the SAR limit of 2.0 W/kg over 10 grams of tissue. The device complies with RF specifications when used at a distance of 0.50 cm from your body. The highest reported SAR value: body SAR: 1.30 W/kg.

EU Regulatory Compliance

Hereby, Honor Device Co., Ltd. declares that this device NDL-W09 is in compliance with the following Directive: RED 2014/53/EU, RoHS 2011/65/EU, ErP 2009/125/EC. The full text of the EU declaration of conformity, the detailed ErP information and most recent information about accessories & software are available at the following internet address:

<https://www.hihonor.com/global/legal/certification/>.
