SENZ WIFI
Alexa Setup

Raychem

SETUP AND SYSTEM REQUIREMENTS

Before proceeding, ensure you have the following:

- The SENZ WIFI app downloaded and installed on your smartphone (download the SENZ WIFI app from App Store or Google Play)
- An account setup in the SENZ WIFI app with your own username and password
- At least one linked Raychem SENZ WIFI thermostat installed

- Confirmed that you can control the SENZ WIFI thermostat(s) via the SENZ WIFI app
- Downloaded the Alexa app on your smartphone

Once you have completed the above setup requirements, follow the steps below to enable the Alexa Skill for the SENZ WIFI thermostat:

HOW TO ENABLE THE ALEXA SKILL FOR THE SENZ WIFI THERMOSTAT

1 Open the **Alexa app** on your smartphone

2 Click the '**More**' icon at the bottom right to open up the settings

3 Click on '**Skills & Games**'

4 Search for the **SENZ WIFI Thermostat** skill name and click on it

5 Click '**ENABLE TO USE**' which will open the login page

6 Sign into your account using your **username and password for the SENZ WIFI app**

7 When you see the permission request to link your Alexa account, click '**Yes, Allow**'

**8** Close the app window by clicking the '**CLOSE**' button

9 Start discovering SENZ WIFI thermostats you can control with Alexa by clicking '**Discover Devices**'

10 Follow the Alexa procedure to put the devices in groups or skip this step

11 Your SENZ WIFI thermostats are now visible in the Alexa app on the devices tab

(NOTE - screenshots of the app may differ depending on the smartphone being used)
