

32 in. 180-Degree Double Low Profile Bullhorn Mounting Bracket Tenon Adapter

PRODUCT DESCRIPTION

The 180-degree Double Low Profile Bullhorn Mounting Bracket is designed to accommodate two area lights with slip fitters, providing a seamless mounting solution for wooden, steel, or concrete poles. Featuring two perfectly aligned tenons, this bracket effortlessly slides onto a 2-3/8 inch O.D. tenon or light pole top, making it a standard choice for various outdoor lighting fixtures like parking lot lights, flood lights, and shoe box light fixture.
