

ULTIMATE HEAVY DUTY CODELOCK

Locks in the CL5000 range are the ultimate standalone electronic door locks. Top of the range digital locks tested to Grade 2 ANSI A156.2/A156.25.

Heavy duty locks for use in high traffic applications. The stylish design incorporates all the features of CL2000 and CL4000, in a larger, more robust assembly. Unlike the other electronic locks, the CL5000 has a conventional 3x4 button keypad layout for instant familiarity, providing quick programming with a multiple range of functions. Particularly suitable for use in health, educational, commercial and residential environments.

LOCK MODELS

Panic Access Kit

Front plate only. Install with new or existing panic equipment. The follower on the panic equipment must return to square to align with follower on the lock.

Tubular Latch

Medium duty tubular latch retracts via the outside knob after a valid code input. When the door closes, the spring latch will lock the door.

Back to Back Option (BB)

Medium duty tubular mortise latch. Two coded plates for installation on both sides of the door. Provides coded access in both directions.

Other Models Available:

CL5250 Mortise Lock

Grade 1 ANSI American Mortise Latchbolt.

IC Cylinder Option

Prepped to receive a Small Format Interchangeable Core. Please note we do not supply core or keys.

Two Tubular Latch Sizes Available:

Requires 1" x 3 1/4" (25mm x 82mm) hole

Requires 1" x 3 3/8" (25mm x 92mm) hole

ADDITIONAL FEATURES

Storeroom Function

Fitted as standard i.e. the latch can be retracted by turning the key.

Code Management

Program and manage codes via the keypad while the lock is on the door. All models also feature a passage function.

ANSI Mortise Options

2 3/8" (70mm) backset. US mortise door prep type 86 cut out ANSI A115.1.

Classroom Function

Tailpiece supplied to allow (when fitted) lock to be left in passage function when the key is removed.

Remote Release

Two REM ports are provided for connection to external switches or alarm systems.
