INTRODUCTION

This manual provides identification of service replacement parts for the Carrier Transport Air Conditioning Air V air conditioning units listed in the following Model Chart. To find replacement parts, determine major group in which replacement parts are located (Upper Unit or Ceiling Unit) and turn to the appropriate page for the illustrated breakdown of the replacement parts.

Carrier's Air V air conditioning models include cooling only units, heating/cooling units, heat pump units and Low Profile upper units. The cooling only units are available with free blow or ducted air delivery. Cooling units with heat strips are available for free blow only. Low Profile units are available as Standard, High Capacity & Heat Pump.

GENERAL NOTES

1. This catalog contains those items most commonly required for replacement purposes. If parts other than those cataloged are required, please provide the model number and serial number of the unit on which the parts are to be used and a complete description including references to items which are cataloged.
2. Casing parts and panels are not normally stocked, but are available upon request while in production. Requests for casing parts and panels for units no longer in production must be cleared for availability prior to submitting an order.
3. The replacement parts listed in this catalog are PPG "Factory-Authorized Parts" and, as a result of "standardization," may not be identical to the original part furnished on the equipment.
4. The following letter designations are used to classify parts throughout this list:
A/R = As Required, H/C = Heat/Cool, NSS = Not Sold Separately, N/S = Not Shown, NLA = No Longer Available

This diagram illustrates the exploded view of a mechanical assembly, with components numbered 1 through 22. The main housing (1) is shown in the center. The assembly includes two filter panels (7, 8) held by clips (9, 10) and secured with screws (14). A central shaft (18) is supported by a spring (4) and a cap (2). A handle (13) is attached to the side via a bracket (12) and a hinge (22). A latch (20) and a pin (21) are also shown. Various other fasteners and structural parts are labeled with numbers 1 through 22.
