

# Cuisinart®

INSTRUCTION AND  
RECIPE BOOKLET

**Gelateria™ Frozen Yogurt, Ice Cream, Gelato & Sorbet Maker**

**ICE-70C Series**

For your safety and continued enjoyment of this product, always read the instruction book carefully before using.

## IMPORTANT SAFEGUARDS

When using an electrical appliance, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury, including the following:

1. **READ ALL INSTRUCTIONS BEFORE USING.**
2. To protect against risk of electric shock, do not place cord, plug, or base of appliance in water or any other liquid.
3. Close supervision is necessary when any appliance is used by or near children.
4. Always unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.
5. Avoid contact with moving parts. Keep hands, hair, clothing, as well as spatulas and other utensils away during operation to reduce the risk of injury and/or damage to the appliance.
6. Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions, or is dropped or damaged in any manner. Return the appliance to the nearest Cuisinart Repair Center for examination, repair, electrical or mechanical adjustment.
7. The use of attachments not recommended by Cuisinart may cause fire, electric shock or risk of injuries.
8. Do not use outdoors.
9. Do not let cord hang over edge of table or counter, or touch hot surfaces.
10. Keep hands and utensils out of freezer bowl while in use to reduce the risk of injury to persons or to the appliance itself. **DO NOT USE SHARP OBJECTS OR UTENSILS INSIDE THE FREEZER BOWL!** Sharp objects will scratch and damage the inside of the freezer bowl. A rubber spatula or wooden spoon may be used when the appliance is in the OFF position.
11. This appliance is for household use. Any servicing other than cleaning and user maintenance should be done only by authorized Cuisinart Repair Personnel.
12. Do not use the freezer bowl on flames, hot plates or stoves. Do not expose to heat source. Do not wash in dishwasher; doing so may cause risk of fire, electric shock or injury.
13. Do not operate your appliance in an appliance garage or under a wall cabinet. **When storing in an appliance garage always unplug the unit from the electrical outlet.** Not doing so could create a risk of fire, especially if the appliance touches the walls of the garage or the door touches the unit as it closes.

## SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY

### NOTICE

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

### CAUTION

This appliance is for household use. Any servicing other than cleaning and user maintenance should be performed by an authorized service representative.

- Do not immerse base in water.
- To reduce the risk of fire or electric shock, do not disassemble the base. Note: The base does not contain any user-serviceable parts.
- Repairs should be made only by authorized personnel.
- Check voltage to be sure that the voltage indicated on the nameplate agrees with your voltage.
- Never clean with scouring powders or hard implements.

### FEATURES AND BENEFITS

1. **Cap With Measurement Cup**  
Pour recipe ingredients through the spout. Also use to add ingredients, like chips or nuts, without interrupting the freezing cycle.
2. **Easy-Lock Lid with Ingredient Spout**  
Transparent to let you watch the freezing process as it progresses. Lid is designed to easily lock to the base.
3. **Mixing Arm**  
Mixes and aerates ingredients in freezer bowl to create frozen desserts.
4. **Freezer Bowl**  
Contains cooling liquid within a double insulated wall to create fast and even freezing. Double wall keeps the bowl cool and at an even temperature.
5. **Control Panel with Timer**  
Select function and preset program time will appear.
6. **Base**  
Contains heavy-duty motor system strong enough to handle ice cream, gelato, frozen yogurt, and sorbet.
7. **Rubber Feet (not shown)**  
Nonslip feet keep base stationary during use.
8. **Cord Storage (not shown)**  
Unused cord is easily pushed into the bottom of base to keep counters neat and safe.

### BEFORE USING FOR THE FIRST TIME

DO NOT immerse the motor base in water. Wipe it with a moist cloth. Wash the lid, freezer bowl and mixing arm in warm soapy water to remove any dust or residue from the manufacturing and shipping process. DO NOT clean any of the parts with abrasive cleaners or hard implements.

### FREEZING TIME AND BOWL PREPARATION

The freezer bowl must be completely frozen before you begin your recipe. For the most convenient frozen desserts, leave your freezer bowl in the freezer at all times. You can take it out any time for immediate use. In general, freezing time is between 12 hours and 24 hours. To determine whether the bowl is completely frozen, shake it. If you do not hear liquid

moving, the cooling liquid is frozen. Before freezing, wash and dry the bowl. We recommend that you place the freezer bowl in the back of your freezer where it is coldest. **Reminder:** Your freezer should be set to 0°F (-18°C) to ensure proper freezing of all foods.

### MAKING FROZEN DESSERTS

1. Use Cuisinart® recipes from the pages that follow, or use your own recipe, making sure it yields 2 quarts (1.89 L) or less. Do not fill the freezer bowl higher than ½ inch (1.25 cm) from the top. The ingredi-ents will increase in volume during the freezing process. For best results, prepare ingredi-ents in a container from which it is easy to pour.
2. Remove the freezer bowl from the freezer. Place freezer bowl on the center of the base. **NOTE:** Bowl will begin to defrost quickly once it has been removed from freezer. Use it immediately after removing from freezer.
3. Place mixing arm in freezer bowl. Arm does not fit tightly. It rests in the center of the bowl, with the circle side facing up.
4. Place lid on base, oriented to the right of center, and turn clockwise to lock. Easy-lock lid mechanism allows lid to rest on base.
5. Once the unit is plugged in, all function buttons should be lit. Using the control panel, select the desired function: ICE CREAM, GELATO or SORBET. You will hear a beep indicating ready mode. Note: Use the ICE CREAM function when preparing frozen yogurt. The function cannot be changed after the preparation cycle begins. If necessary, press Start/ Stop twice to reset the unit.
6. Adjust the preset time by using the arrows, if necessary. Max time is 60 minutes. (Time can not be adjusted after the process begins.) Select Start/Stop. The freezer bowl will start turning, and the pre-programmed time will appear on the LCD screen.
7. Immediately pour ingredients through ingredient spout. Place measurement cup on lid.
8. Frozen desserts will be done in 15 to 40 minutes. The time will depend on the recipe and vol-ume of the dessert you are making. When the mixture has thickened to your liking, it is done. If you desire a firmer consistency, transfer the dessert to an airtight container and store in the freezer for two or more hours.

Once the time expires, the timer will begin counting negative to keep the unit cool for an additional maximum time of 30 minutes. The unit will beep for 5 seconds every 5 minutes during the keep-cool feature to remind you that your dessert is ready to serve or store.

**NOTE:** There are many variables to the final consistency — room temperature, bowl temperature, ingredient temperature, etc. If the recipe is done sooner, press Start/Stop. **NOTE:** Do not store frozen desserts in the freezer bowl. Desserts will stick to the side of the freezer bowl and may damage the bowl. Store only in a plastic airtight container.

ADDING INGREDIENTS

In general, ingredients such as chips and nuts should be added about 5 minutes before the recipe is complete. Once the dessert has begun to thicken, add the ingredients through the ingredient spout.

To add a chocolate swirl to ice cream, gelato or frozen yogurt, drizzle in hot fudge or melted chocolate. The melted chocolate will harden once it makes contact with the freezing ingredients so add it in a slow drizzle to ensure that it does not clump.

SAFETY FEATURE

Cuisinart® Gelateria™ Frozen Yogurt, Ice Cream, Gelato & Sorbet Maker is equipped with a safety feature that automatically stops the unit if the system overheats. This may occur if the dessert is extremely thick, if the unit has been running for an excessively long period of time, or if added ingredients (nuts, etc.) are in extremely large pieces. Remove ingredients to serve or store, press the Start/Stop, begin the process again, if making another cycle.

CLEANING, STORAGE AND MAINTENANCE

Cleaning

Clean the freezer bowl, mixing arm and lid in warm soapy water. DO NOT PUT FREEZER BOWL IN THE DISHWASHER. DO NOT CLEAN WITH ABRASIVE CLEANSERS OR IMPLEMENTS. Wipe motor base clean with damp cloth. Dry all parts thoroughly.

Storage

DO NOT put freezer bowl in freezer if bowl is wet. DO NOT store lid, mixing arm, or base in freezer.

Maintenance

Any other servicing should be performed by an authorized service representative.

Troubleshooting

- **Problem:** The incorrect function was selected.
- **Solution:** Reset the unit by pressing the Start/Stop button twice.
- **Problem:** The unit is beeping every few minutes.
- **Solution:** Press the Start/Stop button, the process has completed.
- **Problem:** The time will not adjust by pressing the arrows.
- **Solution:** Once the Start/Stop button is selected and the processing begins, time cannot be adjusted. To reset the unit, press Start/Stop.

- **Problem:** The unit stopped running.
- **Solution:** Recipe is either complete, or load was too heavy. Press Start/Stop and let unit cool.
- **Problem:** Finished recipe is too thin.
- **Solution:** Place freezer bowl back in the freezer. (Re-evaluate ingredients and/or bowl temperature.)
- **Problem:** Cannot select desired settings. (e.g. cannot adjust timer while running)
- **Solution:** Unplug the unit, and start over.

RECIPE TIPS

The recipes that follow offer you a variety of options for delicious frozen desserts. You may create or use recipes of your own, as long as bases yield 2 quarts (1.89 L) or less.

RECIPE TIPS

- For optimum consistency, chill all mixtures for a minimum of 2 hours or up to 3 days. Always re-whisk the mixture after chilling to be sure all ingredients are well combined. While chilling the mixture is not required, resting it in a chilled environment helps bind the ingredients together, and prevents any ice or fat crystals from forming during the freezing process.
- Some recipes use precooked ingredients. For best results, the precooked mixture should be chilled overnight or chilled over an ice bath before using. To make an ice bath, fill a large container with ice and water. Place saucepan or other container into the ice bath. Cool precooked ingredients completely.
- You may substitute lower-fat creams (e.g., half and half) and/or milk (reduced fat or low fat) for heavy cream and whole milk used in many recipes. However, keep in mind that the higher the fat content, the richer and creamier the result. Using lower-fat substitutes may change the taste, consistency and texture of the dessert. When substituting, be sure to use the same volume of the substitute as you would have used of the original item. For example, if the recipe calls for 2 cups of cream, use a total of 2 cups of the substitute (such as 1 cup cream, plus 1 cup whole milk).
- You may substitute artificial sweeteners for sugar. Stir the mixture thoroughly to dissolve the sweetener. See our recipe suggestions on page 14 for a guide.

- If a firmer consistency is desired, after churning transfer to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.
- When making sorbet, be sure to test the ripeness and sweetness of the fruit before you use it. The freezing process reduces the sweetness of the fruit so that it will taste less sweet than the recipe mixture before churning. If the fruit tastes tart, add additional sugar to the recipe. If the fruit is very ripe or sweet, reduce the amount of sugar in the recipe. Use our sorbet recipes beginning on page 22 as a guide.
- Make sure the mixing arm and lid are in place before turning on machine.

<b>Simple Vanilla Ice Cream</b>	
<i>This ice cream can easily be dressed up by adding your favourite chopped candies or sprinkles at the end of churning.</i>	
Makes about 7 cups (1.75 L) [fourteen ½-cup (125 ml) servings]	
1½ cups (375 ml) whole milk	
1 cup (250 ml) plus 2 tablespoons (30 ml) granulated sugar	
Pinch kosher salt	
3 cups (750 ml) heavy cream	
1½ tablespoons (25 ml) pure vanilla extract	
1. In a medium bowl, use a hand mixer on low speed or whisk to combine the milk, sugar and salt until the sugar is dissolved. Stir in the heavy cream and vanilla. Cover and refrigerate at least 2 hours, or overnight.	
2. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.	
<i>Nutritional information per serving [based on ½ cup (125 ml)]:</i>	
<i>Calories 260 (67% from fat) • carb. 19g • pro. 2g • fat 20g • sat. fat 12g • chol. 75mg • sod. 45mg • calc. 66mg • fiber 0g</i>	
<b>Simple Chocolate Ice Cream</b>	
<i>For a real treat, serve this with our Hot Fudge Sauce on page 26.</i>	
Makes about 7 cups (1.75 L) [fourteen ½-cup (125 ml) servings]	
¾ cup (150 ml) cocoa powder, sifted	
½ cup (125 ml) granulated sugar	
½ cup (75 ml) packed brown sugar	
Pinch kosher salt	
1½ cups (375 ml) whole milk	
3½ cups (875 ml) heavy cream	
2 teaspoons (10 ml) pure vanilla extract	
1. Put the cocoa, sugars and salt in a medium bowl; whisk to combine, breaking up any larger pieces with your fingers. Add the milk and, using a hand mixer on low speed or a whisk, beat to combine until the dry ingredients are dissolved. Stir in the heavy cream and vanilla. Cover and refrigerate at least 2 hours, or overnight.	
2. Press Ice Cream and then START/STOP. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

<b>Peanut Butter Cup Ice Cream</b>	
<i>One of the easiest ice creams to make, the rich peanut butter flavor in this ice cream will have your friends and family in awe.</i>	
Makes about 6 cups (1.5 L) [twelve ½-cup (125 ml) servings]	
1 cup (250 ml) good quality peanut butter	
½ cup (150 ml) granulated sugar	
1 cup (250 ml) whole milk	
1 cups (500 ml) heavy cream	
1 teaspoon (5 ml) pure vanilla extract	
1 cup (250 ml) chopped chocolate peanut butter cup candies (about 15 miniature peanut butter cups)	
1. In a medium mixing bowl, use a hand mixer on low speed to combine the peanut butter and sugar until smooth. Add the milk and mix on low speed until the sugar is dissolved, about 1 to 2 minutes. Stir in the heavy cream and vanilla. Cover and refrigerate at least 2 hours, or overnight.	
2. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. When the ice cream is almost fully churned, gradually add the chopped candy	

into the churning ice cream. Allow to mix thoroughly. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

**Banana Walnut Chip Ice Cream**  
*Do not be intimidated by the multiple steps in this ice cream. The end result of frozen bananas, toasted walnuts and flecks of chocolate makes it worth every minute.*

- Makes about 6 cups (1.5 L) [twelve ½-cup (125 ml) servings]
- ¾ cup (175 ml) whole milk
  - 2½ cups (625 ml) heavy cream
  - 1 whole vanilla bean, halved and seeds scraped
  - ½ teaspoon (2 ml) pure vanilla extract
  - ½ teaspoon (2 ml) kosher salt
  - ½ cup (125 ml) packed dark brown sugar
  - 1 tablespoon (15 ml) water
  - 3 tablespoons (45 ml) unsalted butter
  - 3 large bananas, cut into 1-inch pieces
  - 2 teaspoons (30 ml) rum
  - ½ teaspoon (2 ml) fresh lemon juice
  - ¾ cup (175 ml) toasted walnuts, roughly chopped
  - 6 ounces (170 g) bittersweet chocolate, roughly chopped

1. In a medium saucepan set over medium-low heat, bring the milk, cream, scraped vanilla bean (including the pod), vanilla extract and the salt just to a boil. Remove from heat; let mixture steep for 30 minutes.
2. While the milk/cream mixture is steeping, heat the sugar with water in a large skillet until it begins to sizzle. Stir in the butter and heat until melted. Add the bananas; cook for about 2 minutes, or until fragrant and softened. Carefully stir in the rum and cook for an additional 2 minutes, or until slightly thickened. Remove from heat.

- Stir the lemon juice into the bananas and then mix into the steeped milk/cream. Cover and refrigerate at least 2 hours, or overnight.
3. Right before churning ice cream, melt the bittersweet chocolate in a bowl set over a pot of simmering water. Keep chocolate at room temperature (it should remain fluid, but not hot).
  4. Remove the vanilla pod from the steeped milk/cream mixture; discard pod. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened.
  5. When the ice cream is almost fully churned, add the walnuts; let mix until combined. Right before the ice cream is done, drizzle the melted chocolate into the churning ice cream. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*Nutritional information per serving [based on ½ cup (125 ml)]:*  
Calories 260 (62% from fat) • carb. 22g • pro. 3g • fat 19g • sat. fat 9g  
• chol. 35mg • sod. 90mg • calc. 38mg • fiber 2g

**Butter Pecan Ice Cream**  
*The butter used to toast the pecans can be saved and used over pancakes or waffles.*

- Makes about 6½ cups (1.625 L) [thirteen ½-cup (125 ml) servings]
- 4 tablespoons (60 ml) unsalted butter
  - 1 cup (250 ml) pecan halves
  - 1 teaspoon (5 ml) kosher salt, plus pinch
  - 1½ cups (300 ml) whole milk
  - 1 cup (250 ml) granulated sugar
  - 2½ cups (625 ml) heavy cream
  - 2 teaspoons (10 ml) pure vanilla extract

1. Melt the butter in a medium skillet. Add the pecans and 1 teaspoon (5 ml) of salt. Cook over medium-low heat until pecans are toasted and golden, stirring frequently, about 6 to 8 minutes. Remove from the heat, strain and reserve the pecans, allowing them to chill.

2. In a medium bowl, use a hand mixer on low speed or whisk to combine the milk, sugar and pinch of salt until the sugar is dissolved. Stir in the heavy cream and vanilla. Cover and refrigerate at least 2 hours, or overnight. Whisk mixture together again before pouring into the ice cream maker.

3. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. When the ice cream is almost fully churned, gradually add the pecans. Allow to mix thoroughly. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*Nutritional information per serving [based on ½ cup (125 ml)]:*  
Calories 349 (75% from fat) • carb. 19g • pro. 3g • fat 30g • sat. fat 15g

**Fresh Strawberry Ice Cream**  
*Best made when strawberries are at their peak, this ice cream is light, sweet and fruity.*

- Makes about 5½ cups (1.375 ml) [eleven ½-cup (125 ml) servings]
- 1½ cups (375 ml) fresh strawberries, hulled\*
  - ¾ cup (175 ml) whole milk
  - ¾ cup (150 ml) granulated sugar
  - Pinch kosher salt
  - 1½ cups (375 ml) heavy cream
  - 1½ teaspoons (7 ml) pure vanilla extract

1. Put the strawberries into the bowl of a food processor fitted with the chopping blade. Pulse strawberries until rough/fine chopped (depending on preference).
2. In a medium bowl, use a hand mixer on low speed or whisk to combine the milk, sugar and salt until the sugar is dissolved. Stir in the heavy cream and vanilla. Stir in reserved strawberries with all juices. Cover and refrigerate at least 2 hours, or overnight. Whisk mixture together again before pouring into the ice cream maker.

3. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

\*Thawed frozen strawberries may be substituted if fresh strawberries are not available.

*Nutritional information per serving [based on ½ cup (125 ml)]:*  
Calories 175 (62% from fat) • carb. 15g • pro. 1g • fat 12g • sat. fat 8g  
• chol. 46mg • sod. 21mg • calc. 24mg • fiber 0g

**Rich Vanilla Bean Ice Cream**  
*For the true vanilla lover, be sure to use fresh vanilla beans to capture the intense flavour.*

- Makes about 6 cups (1.5 L) [twelve ½-cup (125 ml) servings]
- 2½ cups (575 ml) whole milk
  - 2½ cups (625 ml) heavy cream
  - 1½ cups (300 ml) granulated sugar, divided
  - Pinch kosher salt
  - 1 whole vanilla bean, halved and seeds scraped
  - 7 large egg yolks

1. In a medium saucepan set over medium-low heat, add the milk, cream, half of the sugar, salt and the scraped vanilla bean (including the pod). Whisk to combine and bring the mixture just to a boil.
2. While the milk/cream mixture is heating, combine the yolks and remaining sugar in a medium bowl. Using a hand mixer on low speed or whisk, beat until mixture is pale and thick.
3. Once the milk/cream mixture has come to a slight boil, whisk about ½ of the hot mixture into the yolk/sugar mixture. Add another ½ of the mixture, then return the combined mixture to the saucepan. Using a wooden spoon, stir the mixture constantly over low heat until it thickens slightly and coats the back of the spoon. This mixture must NOT boil or the yolks will overcook – the process should only take a few minutes.

4. Let ice cream base come to room temperature. Then cover and refrigerate at least 2 hours, or overnight. Before churning, pour the mixture through a fine mesh strainer and discard the vanilla pod.
5. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*Nutritional information per serving (based on ½ cup):*

#### Fresh Mint with Chocolate Cookies Ice Cream

*Always a winning combination, fresh mint and chocolate take the forefront in this rich and creamy ice cream.*

Makes about 7 cups (1.75 ml) [fourteen ½-cup (125 ml) servings]

- 2½ cups (575 ml) whole milk  
2½ cups (575 ml) heavy cream  
1¼ cups (300 ml) granulated sugar, divided  
¼ teaspoon (1 ml) kosher salt  
2 teaspoons (10 ml) pure vanilla extract  
3 cups (750 ml) fresh mint leaves  
7 large egg yolks  
1½ cups (375 ml) crushed chocolate sandwich cookies (about 12 cookies)

1. In a medium saucepan set over medium-low heat, add the milk, cream, half of the granulated sugar, salt, vanilla and mint leaves. Whisk to combine and bring the mixture just to a boil.
2. While the milk/cream mixture is heating, combine the yolks and remaining sugar in a medium bowl. Using a hand mixer on low speed or a whisk, beat until mixture is pale and thick.
3. Once the milk/cream mixture has just come to a boil, slowly whisk about ⅓ of the hot mixture into the yolk/sugar mixture. Whisk in

another ⅓ of the mixture and return the combined mixture to the saucepan. Using a wooden spoon, stir the mixture constantly over low heat until it thickens slightly and coats the back of the spoon. This mixture must NOT boil or the yolks will overcook – the process should only take a few minutes.

4. Bring the ice cream base to room temperature. Then cover and refrigerate at least 2 hours, or overnight. Before churning, pour the custard through a fine mesh strainer.
5. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. When the ice cream is almost fully churned, gradually add the crushed cookies. Allow to mix thoroughly. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*Nutritional information per serving (based on ½ cup (125 ml)):*

#### Mexican-Style Chocolate Ice Cream

*This ice cream can be spicy for some, so adjust the cayenne to your personal taste.*

Makes about 6 cups (1.5 L) [about twelve ½-cup (125 ml) servings]

- 2½ cups (625 ml) whole milk  
2½ cups (625 ml) heavy cream  
2 teaspoons (10 ml) pure vanilla extract  
1½ teaspoons (7 ml) ground cinnamon  
¼ teaspoon (1 ml) cayenne  
¾ teaspoon (3.75 ml) kosher salt  
1 cup (250 ml) granulated sugar, divided  
8 large egg yolks  
8 ounces (230 g) bittersweet chocolate, roughly chopped

1. In a medium saucepan set over medium-low heat, add the milk, cream, vanilla, spices, salt and half of the sugar. Whisk to combine and bring the mixture just to a boil.

2. While the milk/cream mixture is heating, combine the yolks and remaining sugar in a medium bowl. Using a hand mixer on low speed or a whisk, beat until mixture is pale and thick.
3. Place the chopped chocolate in a separate mixing bowl; reserve.
4. Once the milk/cream mixture has come to a slight boil, whisk about ⅓ of the hot mixture into the yolk/sugar mixture. Add another ⅓ of the mixture and return the combined mixture to the saucepan. Using a wooden spoon, stir the mixture constantly over the low heat until it thickens slightly and coats the back of the spoon. This mixture must NOT boil or the yolks will overcook – the process should only take a few minutes.
5. Pour the hot mixture through a fine mesh strainer into the bowl of the reserved chocolate; let stand for about 1 minute then whisk to combine, making sure the chocolate is melted and custard is smooth. Let the base come to room temperature. Then cover and refrigerate at least 2 hours, or overnight.
6. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*Nutritional information per serving (based on ½ cup (125 ml)):*

#### Pistachio Ice Cream

*An old standby takes center stage in the Cuisinart® Gelateria™ Frozen Yogurt, Ice Cream, Gelato & Sorbet Maker. We love this flavour in our Birthday Cake on page 25, or just scoop into your favourite cone.*

Makes about 7 cups (1.75 L) [about fourteen ½-cup (125 ml) servings]

- 2 cups (500 ml) whole milk  
2 cups (500 ml) heavy cream  
1 cup (250 ml) granulated sugar, divided  
Pinch kosher salt

- 5 large egg yolks  
1½ cups (375 ml) shelled, roasted, unsalted pistachios  
¾ teaspoon (3.75 ml) almond extract

1. In a medium saucepan set over medium-low heat, combine the milk, cream, ⅓ cup (75 ml) of the sugar, and salt. Whisk to combine and bring the mixture just to a boil.
2. While the milk/cream mixture is heating, combine the yolks and ⅓ cup (75 ml) of the sugar in a medium bowl. Using a hand mixer on low speed or a whisk, beat until mixture is pale and thick.
3. In the bowl of a food processor fitted with the chopping blade, combine the pistachios with the remaining sugar. Pulse to roughly chop the nuts and set aside.
4. Once the milk/cream mixture has just come to a boil, whisk about ⅓ of the hot mixture into the yolk/sugar mixture. Add another ⅓ of the mixture and return the combined mixture to the saucepan. Using a wooden spoon, stir the mixture constantly over low heat until it thickens slightly and coats the back of the spoon. This mixture must NOT boil or the yolks will overcook – the process should only take a few minutes.
5. Pour the mixture through a fine mesh strainer into a medium bowl. Stir in the chopped pistachios and the almond extract. Let the base come to room temperature. Then cover and refrigerate at least 2 hours, or overnight.
6. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened.

The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

<div><div><div>Cherry-Chocolate Ice Cream</div><div><div>Chocolate-covered cherries in ice cream form. This dairy-free dessert is sure to please all.</div></div></div></div>			

Makes about 6 cups (1.5 L) [twelve ½-cup (125 ml) servings]

**2 cans [13.5 ounces (400 ml) each] coconut milk (do not use “lite”)**  
**¾ cup (175 ml) granulated sugar**  
**½ teaspoon (2 ml) kosher salt**  
**1 teaspoon (5 ml) pure vanilla extract**  
**1 cup (250 ml) frozen cherries, thawed**  
**4 ounces (115 g) semisweet chocolate [about ¾ cup (175 ml)], melted and kept warm (or use dairy-free or carob chips)**

1. Using a blender or in a bowl with an immersion blender on low speed, mix the coconut milk, sugar, salt and vanilla until very smooth with no clumps. Add the thawed cherries and pulse to combine (they can be fully puréed, or left in pieces, depending on personal preference).

2. Chill for at least 2 hours, or overnight. Whisk mixture before pouring into the ice cream maker.

3. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. When the ice cream is almost fully churned, drizzle in the melted chocolate. The ice cream will have a soft, creamy texture. If a firmer consistency is desired, transfer the ice cream to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*Nutritional information per serving [based on ½ cup (125 ml)]:*  
*Calories 165 (74% from fat) • carb. 10g • pro. 1g • fat 15g • sat. fat 13g • chol. 0mg • sod. 112mg • calc. 3mg • fiber 1g*

**Basic Vanilla Gelato**

*Drizzle in melted chocolate for a decadent stracciatella gelato.*

Makes about 5 cups (1.25 L) ten ½-cup servings]

- 1 cup (250 ml) heavy cream**  
**3 cups (750 ml) whole milk, divided**  
**1 cup (250 ml) granulated sugar**  
**2 tablespoons (30 ml) cornstarch**

**Pinch kosher salt**  
**½ teaspoon (2 ml) pure vanilla extract**  
**1 tablespoon (15 ml) liquid pectin**

1. In a medium saucepan, combine cream and 2 cups (500 ml) of the milk. Set over medium/medium-low heat and bring to a simmer.

2. While cream/milk mixture is heating, put the remaining milk, sugar, cornstarch, salt and vanilla into a small-medium mixing bowl. Whisk to combine.

3. Once cream/milk mixture comes to a simmer, add the milk/sugar mixture and stir until fully combined. While still set over medium/medium-low heat, continuously stir until mixture comes to a strong simmer and thickens slightly, so it just coats the back of a spoon (this will take no more than 20 minutes, depending on the stove being used).

4. Remove pan from heat, stir in pectin, strain and cool to room temperature. Cover and refrigerate at least 2 hours, or overnight. Whisk mixture together again before pouring into the ice cream maker.

5. Press Gelato and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The gelato will have a soft, creamy texture. If a firmer consistency is desired, transfer the gelato to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

**Chocolate-Hazelnut Gelato**

*A standard in many gelaterias, bring the flavors of Italy to your kitchen with this recipe.*

Makes about 5 cups (1.25 L) [ten ½-cup (125 ml) servings]

- 1½ cups (425 ml) heavy cream**  
**2½ cups (550 ml) whole milk, divided**  
**½ cup (125 ml) granulated sugar**

**2 tablespoons (30 ml) cornstarch**  
**Pinch kosher salt**  
**1 cup (250 ml) chocolate-hazelnut spread**  
**½ cup (125 ml) chopped hazelnuts**

1. In a medium saucepan, combine the cream and 1½ cups (375 ml) of the milk. Set over medium/medium-low heat and bring to a simmer.

2. While cream/milk mixture is heating, put the remaining milk, sugar, cornstarch and salt into a small-medium mixing bowl. Whisk to combine.

3. Once cream/milk mixture comes to a simmer, add the milk/sugar mixture and stir until fully combined. Slowly whisk in the chocolate-hazelnut spread. While still set over medium/medium-low heat, continuously stir until mixture comes to a strong simmer and thickens slightly so it just coats the back of a spoon (this will take no more than 20 minutes, depending on the stove being used).

4. Remove pan from heat, strain and cool to room temperature. Cover and refrigerate at least 2 hours, or overnight. Whisk mixture together again before pouring into the ice cream maker.

5. Press Gelato and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. When the gelato is almost fully churned, gradually add the hazelnuts. Allow to mix thoroughly. The gelato will have a soft, creamy texture. If a firmer consistency is desired, transfer the gelato to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*Calories 403 (62% from fat) • carb. 30g • pro. 5g • fat 30g • sat. fat 13g • chol. 65mg • sod. 71mg • calc. 136mg • fiber 3g*

**Custard Gelato**

*This recipe uses egg yolks to create an extra creamy and custard-like flavour.*

Makes about 4 cups (1 L) [eight ½-cup (125 ml) servings]

- 1 cup (250 ml) heavy cream**  
**2 cups (500 ml) whole milk, divided**

**2 teaspoons (10 ml) pure vanilla extract**  
**¼ teaspoon (1 ml) kosher salt**  
**2 tablespoons (30 ml) cornstarch**  
**6 large egg yolks**  
**¾ cup (175 ml) granulated sugar**

1. Put the cream and 1½ cups (425 ml) milk together with the vanilla and salt into a saucepan over medium heat and bring just to a simmer. In a small bowl, mix together the remaining milk with the cornstarch and reserve.

2. While the cream/milk mixture is heating, combine the yolks and sugar in a medium bowl. Using a hand mixer on low speed or whisk, beat well until mixture is pale and thick.

3. Once the cream/milk mixture has come to a simmer, stir in the milk/cornstarch mixture and continue to stir over heat for an additional 5 minutes, being sure mixture does not come to a boil.

4. Whisking continuously at the same time, whisk about ⅓ of the hot mixture into the yolk/sugar mixture. Add another ⅓ of the mixture, then return the combined mixture to the saucepan. Using a wooden spoon, stir the mixture constantly over low heat until it thickens slightly and coats the back of the spoon. This mixture must NOT boil or the yolks will overcook. The process should only take a few minutes.

5. Let gelato base come to room temperature. Then cover and refrigerate at least 2 hours, or overnight. Before churning, strain the base through a fine mesh sieve.

6. Press Gelato and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The gelato will have a soft, creamy texture. If a firmer consistency is desired, transfer the gelato to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

Lemon Gelato

The perfect amount of sweet and tart for this classic gelato flavour.

Makes about 5 cups (1.25 L) [ten ½-cup (125 ml) servings]

- 1

2

½

1¼

2

1

1

1
- cup (250 ml) heavy cream

cups (500 ml) whole milk, divided

cup (125 ml) lemon zest (from about 4–6 medium lemons)

cups (300 ml) granulated sugar

tablespoons (30 ml) cornstarch

Pinch kosher salt

teaspoon (5 ml) pure vanilla extract

tablespoon (15 ml) liquid pectin

cup (250 ml) lemon juice (from about 4–6 medium lemons)

1.

2.

3.

4.

5.
- In a medium saucepan, combine the cream and 1 cup (250 ml) of the milk. Set over medium/medium-low heat and bring to a simmer.

While cream/milk mixture is heating, put the remaining milk, lemon zest, sugar, cornstarch, salt and vanilla into a small-medium mixing bowl. Whisk to combine.

Once cream/milk mixture comes to a simmer, add the milk/sugar mixture and stir until fully combined. While still set over medium/medium-low heat, continuously stir until mixture comes to a strong simmer and thickens slightly so it just coats the back of a spoon (this will take no more than 20 minutes, depending on the stove being used).

Remove pan from heat, stir in pectin, strain and cool to room temperature. Stir in the lemon juice, cover and refrigerate at least 2 hours, or overnight. Whisk mixture together again before pouring into the ice cream maker.

Press Gelato and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The gelato will have a soft, creamy texture. If a firmer consistency is desired, transfer the gelato to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

Nutritional information serving [based on ½ cup (125 ml)]:

Mascarpone and Fig Gelato

Mascarpone and fig combine deliciously together in this grown-up gelato flavour.

Makes about 6½ cups (1.625 ml) [thirteen ½-cup (125 ml) servings]

- Fig purée: [or, you can substitute 1 cup (250 ml) fig jam for the homemade purée]

1

1½

2
- cup (250 ml) dried, sulfate-free figs, about 10 to 12 figs

cups (375 ml) water, plus more as needed

tablespoons (30 ml) honey

- Mascarpone base:

1½

3

1½

3

2

1½

1½

1
- cups (375 ml) heavy cream

cups (750 ml) whole milk, divided

cups (400 ml) granulated sugar

tablespoons (45 ml) cornstarch

Pinch kosher salt

teaspoons (10 ml) pure vanilla extract

cups (375 ml) mascarpone

tablespoons (25 ml) liquid pectin

recipe Fig Purée (entire yield from recipe above)

Make the purée:

1.

2.

3.
- Put the figs, water and honey in a small saucepan. Bring mixture to a boil and then immediately reduce the heat to maintain a slight simmer.

Continue simmering for at least 3 hours, adding water as necessary to keep the figs covered while they are simmering.

When figs are really soft and there is only ½ cup of liquid remaining, purée mixture with a hand blender until smooth. Refrigerate until ready to use.

While the figs are simmering, prepare the base:

1.

2.

3.

4.

5.

6.
- In a medium saucepan, combine the cream and 1½ cups (375 ml) of the milk. Set over medium/medium-low heat and bring to a simmer.

While cream/milk mixture is heating, put the remaining milk, sugar, cornstarch, salt and vanilla into a medium mixing bowl. Whisk to combine.

Once cream/milk mixture comes to a simmer, add the milk/sugar mixture and stir until fully combined; reserve the mixing bowl for the mascarpone. Add the mascarpone to the reserved bowl and whisk to loosen slightly.

While still set over medium/medium-low heat, continuously stir until mixture comes to a strong simmer and thickens slightly so it just coats the back of a spoon (this will take no more than 20 minutes, depending on the stove being used).

Remove pan from heat. Slowly pour the hot liquid into the mascarpone, mixing with a hand mixer or whisk until mixture is completely homogenous. Once mixture is homogenous, stir in pectin, strain and cool to room temperature. Cover and refrigerate at least 2 hours, or overnight. Whisk mixture together again before pouring into the ice cream maker. Mixture will be very thick.

Press Gelato and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. When the gelato is almost fully churned, gradually add the fig purée, a dollop at a time. Allow to mix thoroughly. The gelato will have a soft, creamy texture. If a firmer consistency is desired, transfer the gelato to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

Nutritional information per serving [based on ½ cup (125 ml)]:  
Calories 364 (50% from fat) • carb. 41g • pro. 4g • fat 20g • sat. fat 13g  
• chol. 74mg • sod. 128mg • calc. 115mg • fiber 1g

Mixed Berry Gelato

The richness of the cream and the sweetness of the berries are reminiscent of pie à la mode.

Makes about 7 cups (1.75 ml) [fourteen ½-cup (125 ml) servings]

- 2

4

1½

3

¼

2

1

2
- cups (500 ml) heavy cream

cups (1 L) whole milk, divided

cups (375 ml) granulated sugar

tablespoons (45 ml) cornstarch

teaspoon (1 ml) kosher salt

cups (500 ml) mixed fresh or frozen (thawed) berries

teaspoon (5 ml) pure vanilla extract

tablespoons (30 ml) mixed berry jam

1.

2.

3.

4.

5.
- In a medium saucepan, combine the cream and 3 cups (750 ml) of the milk. Set over medium/medium-low heat and bring to a simmer.

While cream/milk mixture is heating, put the remaining milk, sugar, cornstarch and salt into a small-medium mixing bowl. Whisk to combine. Using a blender, food processor or hand blender, purée the berries until mostly smooth; reserve.

Once cream/milk mixture comes to a simmer, add the milk/sugar mixture and stir until fully combined. While still set over medium/medium-low heat, continuously stir until mixture comes to a strong simmer and thickens slightly, so it just coats the back of a spoon (this will take no more than 20 minutes, depending on the stove being used).

Remove pan from heat, stir in the puréed berries, vanilla and jam; strain and cool to room temperature. Cover and refrigerate a minimum of 2 hours, or overnight. Whisk mixture together again before pouring into the ice cream maker.

Press Gelato and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The gelato will have a soft, creamy texture. If a firmer consistency is desired, transfer the gelato to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

Nutritional information per serving [based on ½ cup (125 ml)]:  
Calories 207 (44% from fat) • carb. 27g • pro. 2g • fat 10g • sat. fat 6g

*A savoury treat, this fragrant gelato is perfect with a simple cookie on the side*

Makes about 4½ cups (1.125 L) [nine ½-cup (125 ml) servings]

- 1 cup (250 ml) heavy cream
  - 3 cups (750 ml) whole milk, divided
  - 2 sprigs fresh thyme
  - 3 cup (250 ml) granulated sugar
  - 2 tablespoons (30 ml) cornstarch
  - 2 Pinch kosher salt
  - 3/4 cup (175 ml) extra virgin olive oil
  - 1 tablespoon (15ml) liquid pectin
1. In a medium saucepan, combine the cream, 2 cups (500 ml) of the milk, and the thyme. Set over medium-low-heat and bring to a simmer. Remove from heat and allow thyme to steep in the cream/milk mixture for about 30 minutes. After steeping, remove and discard thyme and then return to the heat and bring back to a simmer.
2. While cream/milk mixture is re-heating, put the remaining milk, sugar, cornstarch and salt into a small-medium mixing bowl. Whisk to combine. Slowly whisk in the olive oil.
3. Once cream/milk mixture comes to its second simmer, add the milk/ sugar mixture and stir until fully combined. While still set over a medium-low-heat and cook, continuously stir until mixture comes to a strong simmer and thickens slightly, so it just coats the back of a spoon (this will take no more than 20 minutes, depending on the stove being used).
4. Remove pan from heat, stir in pectin, strain and cool to room temperature. Cover and refrigerate at least 2 hours, or overnight. Whisk mixture together again before pouring into the ice cream maker.
5. Press Gelato and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The gelato will have a soft, creamy texture. If a firmer consistency is desired, transfer the gelato to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

While part-skim or fat-free yogurt can be substituted, to get the real flavour and richness of this frozen yogurt it is best to use the whole-milk variety. Makes about 4 cups (1 L) [eight ½-cup (125 ml) servings]

Makes about 4 cups (1 L) [eight ½-cup (125 ml) servings]

- 2      tablespoons (30 ml) light corn syrup  
2      tablespoons (30 ml) honey  
¼      cup (60 ml) water  
1      vanilla bean, split and seeds scraped  
1      cups (1 L) whole milk, plain Greek yogurt  
1      teaspoon (7 ml) pure vanilla extract  
1½    cups (300 ml) granulated sugar  
Pinch kosher salt
1. Add the corn syrup, honey, water and scraped vanilla pod to a medium saucepan. Bring mixture to a boil and then simmer until reduced by half; cool and reserve.
2. In a large mixing bowl, whisk the yogurt, vanilla seeds, reserved honey-vanilla reduction, vanilla extract, sugar and salt together. Whisk until the sugar is dissolved. Cover and refrigerate for 2 to 3 hours, or overnight.
3. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The frozen yogurt will have a soft, creamy texture. If a firmer consistency is desired, transfer the frozen yogurt to an airtight container and place in the freezer about 2 hours. Remove from freezer about 15 minutes before serving.

Nutritional information per serving [based on 1/2 cup (125 ml)]:  
Calories 387 (27% from fat) • carb. 48g • pro. 5g • fat 12g • sat. fat 8g

*We use frozen mango to make this a quick, simple dessert, but for a more intense flavour, use ripe, fresh mango.*

Makes about 6 cups (1.5 L) [twelve ½-cup (125 ml) servings]

- 2 cups (500 ml) whole milk, plain Greek yogurt  
 ½ cup (125 ml) granulated sugar  
 4 cups (1 L) frozen mango pieces, thawed  
 1 teaspoon (5 ml) fresh lime juice  
 Pinch kosher salt

1. Put all of the ingredients into a Cuisinart® food processor. Purée until completely smooth, stopping to scrape down the sides of the bowl as needed. Strain mixture into a medium mixing bowl, cover and refrigerate at least 2 hours, or overnight.
2. Press Ice Cream and then Start/Stop. Pour the mixture through the strainer then cover with the cap. Let mix until thickened. The frozen yogurt will have a soft, creamy texture. If a firmer consistency is desired, transfer the frozen yogurt to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*The combination of the chocolate and the salt from the pretzel is a standout in this tangy and sweet dessert.*

Makes about 6½ cups (1.625 L) [thirteen ½-cup (125 ml) servings]

- 4 cups (1 L) whole milk, plain Greek yogurt  
 ¾ cup (175 ml) granulated sugar  
 ⅓ cup (75 ml) cocoa powder, sifted  
 Pinch kosher salt  
 1 cup (250 ml) whole milk  
 ½ teaspoon (125 ml) pure vanilla extract

1. In a large mixing bowl, whisk together all ingredients except the pretzels, until the dry ingredients have dissolved. Cover and refrigerate at least 2 hours, or overnight.

2. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. When the frozen yogurt is almost fully churned, gradually add the chopped pretzels. Allow to mix thoroughly. The frozen yogurt will have a soft texture. If a firmer consistency is desired, transfer the frozen yogurt to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*The tanginess of the yogurt comes through in this low-fat dessert.*  
Makes about 7 cups (1.75 L) [fourteen ½-cup (125 ml) servings]

- 2 cups (500 ml) whole milk, plain Greek yogurt  
 ½ cup (125 ml) granulated sugar  
 Pinch kosher salt  
 1 teaspoon (5 ml) pure vanilla extract  
 4 cups (1 L) blueberries fresh or frozen (thawed)  
 1 teaspoon (5 ml) fresh lemon juice

1. Put all ingredients into a Cuisinart® food processor. Purée until completely smooth, stopping to scrape down the sides of the bowl as needed. Strain into a large mixing bowl, cover and refrigerate at least 2 hours, or overnight.
2. Press Ice Cream and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The resulting yogurt will have a soft, creamy texture. If a firmer consistency is desired, transfer the frozen yogurt to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

Nutritional information per serving [based on ½ cup (125 ml)]:  
Calories 282 (65% from fat) • carb. 22g • pro. 3g • fat 20g • sat. fat 14g  
• chol. 71mg • sod. 56mg • calc. 78mg • fiber 1g

Makes about 8 cups (2 L) [sixteen ½-cup (125 ml) servings]

**4 cups (1 L) water**  
**2 cups (500 ml) granulated sugar**  
**¼ teaspoon (2 ml) kosher salt**  
**½ ounce (115 g) semi-sweet chocolate, chopped [or about ¾ cup (175 ml) chocolate chips]**  
**2 cups (500 ml) cocoa powder, sifted**  
**1½ teaspoons (7 ml) pure vanilla extract**

1. Prepare simple syrup with the water, sugar and salt by adding all three to a medium saucepan and simmering on low heat. Cook mixture until the sugar is fully dissolved.
2. While syrup is cooking, put the chocolate in a medium bowl; reserve.
3. In a medium bowl, gradually add the hot simple syrup to the cocoa powder by whisking constantly until smooth. Pour mixture over the chocolate and let sit for 5 minutes to melt the chocolate, add the vanilla and stir to combine. Cool to room temperature. Cover, and refrigerate at least 2 hours, or overnight.
4. Press Sorbet and then Start/Stop. Pour the mixture through the spout and then cover with the measuring cup. Let mix until thickened. The sorbet will have a soft texture. If a firmer consistency is desired, transfer the sorbet to an airtight container and place in freezer about 2 hours. Remove from freezer about 15 minutes before serving.

Nutritional information per serving [based on ½ cup (125 ml)]:  
Calories 171 (15% from fat) • carb. 36g • pro. 2g • fat 3g • sat. fat 1g  
• chol. 0mg • sod. 69mg • calc. 4mg • fiber 2g

*The basil adds a nice undertone to the sorbet, but any one of your favourite herbs could be substituted.*

Makes about 7 cups (1.75 ml) [fourteen ½-cup (125 ml) servings]

3¼ cups (810 ml) water  
2½ cups (550 ml) granulated sugar  
2 tablespoons (30 ml) lemon zest, divided  
1½ cups (375 ml) packed fresh basil  
Pinch kosher salt  
3¼ cups (810 ml) fresh lemon juice

1. Prepare lemon simple syrup with the water, sugar and 1 tablespoon (15 ml) of the lemon zest by adding all three to a medium saucepan and set over medium-low heat. Cook mixture until the sugar is fully dissolved. Remove from heat.
2. Once the simple syrup is ready, add the basil and salt. Let the mixture steep for 30 minutes. Stir in the lemon juice. Cool to room temperature, cover and refrigerate at least 2 hours, or overnight.
3. Strain the chilled mixture through a fine mesh strainer, discarding the zest and basil. Press Sorbet and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let a mixer until thickened. The sorbet will have a soft texture. If a firm consistency is desired, transfer the sorbet to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

Nutritional information per serving [based on 1/2 cup (125 ml)]:  
Calories 140 (0% from fat) • carb. 37g • pro. 0g • fat 0g • sat. fat 0g  
• chol. 0mg • sod. 12mg • calc. 14mg • fiber 0g

*The perfect pairing of flavours for a light dessert.*

Makes about 8 cups (2 L) [sixteen ½-cup (125 ml) servings]

3 cups (750 ml) water  
2 cups (500 ml) granulated sugar  
1 cup (250 ml) packed mint leaves  
Pinch kosher salt  
6 cups (1.5 L) frozen raspberries, thawed

1. Prepare simple syrup with the water and sugar by adding both to a medium saucepan set over medium-low heat. Cook mixture until the sugar is fully dissolved.
2. Once the simple syrup is ready, remove from heat and add the mint leaves and salt. Let the mixture steep for 15 to 20 minutes. If you desire a milder mint flavor, remove and discard the mint leaves after steeping, but for a more intense infusion, blend the sugar/mint mixture using a Cuisinart® Immersion Blender.
3. Add the raspberries and, using a Cuisinart® Immersion Blender, blend the mixture until smooth. Strain through a fine mesh strainer, cool to room temperature, cover and refrigerate at least 2 hours, or overnight.
4. Press Sorbet and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mixer until thickened. The sorbet will have a soft texture. If a firmer consistency is desired, transfer the sorbet to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

*This refreshing dessert could also double as a frozen cocktail.*

Makes about 4 cups (1 L) [eight ½-cup (125 ml) servings]

¾ cup (175 ml) water  
¾ cup (175 ml) granulated sugar  
1 tablespoon (15 ml) grapefruit zest  
Pinch kosher salt  
2 cups (500 ml) fresh grapefruit juice  
¾ cup (175 ml) prosecco (Italian sparkling wine)

1. Combine the water, sugar, zest and salt in a small to saucpan set over medium-low heat. Cook mixture until fully dissolved.

2. Pour the grapefruit juice into the sugar/zest mixture and whisk together. Cool to room temperature, cover and refrigerate at least 2 hours, or overnight. Strain mixture, and then whisk in prosecco prior to pouring into the ice cream maker.
3. Press Sorbet and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The sorbet will have a soft texture. If a firmer consistency is desired, transfer the sorbet to an airtight container and place in freezer for about 2 hours. Remove from freezer about 15 minutes before serving.

### Pineapple Sorbet

*For a taste of the tropics, prepare this sorbet for your family and friends.*

Makes about 7 cups (1.75 L) [fourteen ½-cup (125 ml) servings]

- 2 **cups (500 ml) water**  
1 **cup (250 ml) granulated sugar**  
**Pinch kosher salt**
- 4½ **cups (1.125 L) cubed pineapple (fresh or frozen, thawed, not canned)**
1. Prepare simple syrup by adding the water, sugar and salt (if using fresh pineapple, the core can be added to the pot as well) to a medium saucepan set over medium-low heat. Cook until the sugar is fully dissolved. Discard the core and remove from heat and bring to room temperature.
2. In a blender, combine the simple syrup and the cubed pineapple and blend until smooth. Strain through a fine mesh strainer. Cover and refrigerate at least 2 hours, or overnight.
3. Press Sorbet and then Start/Stop. Pour the mixture through the spout and then cover with the cap. Let mix until thickened. The sorbet will have a soft texture. If a firmer consistency is desired, transfer the sorbet to an airtight container and place in freezer for

about 2 hours. Remove from freezer about 15 minutes before serving.

*Nutritional information per serving [based on ½ cup (125 ml)]:*

• chol. 0mg • sod. 12mg • calc. 8mg • fiber 1g

### Chocolate Cocoa Nib and Pecan Sandwich Cookies

*A step above the traditional ice cream sandwich cookies. If you cannot find cocoa nibs, miniature chocolate chips can be substituted, or you can double the amount of pecans.*

Makes 24 cookies (for 12 ice cream sandwiches)

- ½ **cup (75 ml) cocoa powder, sifted**  
1½ **cups (325 ml) bread flour**  
¾ **teaspoon (3.75 ml) baking powder**  
¼ **teaspoon (1 ml) kosher salt**  
1 **tablespoon (15 ml) instant espresso powder**  
1 **cup [125 ml (1 stick)] unsalted butter, room temperature and cubed**  
½ **cup (250 ml) granulated sugar**  
1 **large egg**  
1 **teaspoon (5 ml) pure vanilla extract**  
3 **tablespoons (45 ml) cocoa nibs (can be found in most gourmet or specialty stores)**  
¼ **cup (60 ml) chopped pecans, toasted**
1. Preheat oven to 350°F (180°C).
2. Combine the cocoa powder, flour, baking powder, salt and espresso powder in a small bowl. Whisk to blend; reserve.
3. Place the butter in the bowl of a Cuisinart® Stand Mixer, fitted with the mixing paddle. Using medium speed (4 to 5), cream until smooth. Gradually add the sugar and mix until creamy. Add the egg and vanilla and mix until combined. Add the reserved dry ingredients and using a low speed (2 to 3), mix until fully incorporated. Add the cocoa nibs and pecans and mix on low until just combined.

4. Using a small ice cream scoop [about 1½ inches (3.75 cm) in diameter], scoop the dough onto a parchment-lined cookie sheet [each round should be about 2 tablespoons (30 ml)]. Use a cup to flatten each cookie mound down.
5. Bake in the preheated oven for about 20 minutes, or until the cookie looks dry, but not firm. Let cookies fully cool before assembling.
6. To assemble: Using a small ice cream scoop, scoop about 2 tablespoons (15 ml) of your favourite ice cream onto the flat part of one cookie. Place another cookie on top of the ice cream and press down until the ice cream just reaches the edge of the cookies. Continue with each set of cookies. Wrap each ice cream sandwich in plastic wrap and chill in the freezer until firm (about 20 minutes).

*Nutritional information per serving (2 cookies, not including ice cream):*  
Calories 200 (36% from fat) • carb. 29g • pro. 2g • fat 8g • sat. fat 4g  
• chol. 30mg • sod. 90mg • calc. 15mg • fiber 1g

### Pistachio Birthday Cake

*We love the flavour combination of the pistachio ice cream with a chocolate crust, but any flavour can be substituted.*

Makes 16 servings

- ½ **cup [125 ml (1 stick)] unsalted butter, cubed**  
6 **ounces semisweet chocolate, chopped**  
60 **chocolate wafer cookies**  
1 **recipe Pistachio Ice Cream (page 12), softened**  
½ **cup (125 ml) chopped pistachios, toasted**
1. In a heat-proof bowl set over a pot of simmering water, combine the butter and chocolate. Stirring occasionally, let sit until just melted. Reserve.
2. In the bowl of a Cuisinart® Food Processor fitted with the chopping blade, add the chocolate wafer cookies. Pulse until finely chopped. Add the melted butter/chocolate mixture through the feed tube of the processor and pulse until completely combined. Press ¾ of the chocolate crumb mixture into the bottom of a 10-inch springform pan. Place in freezer, chill 10 to 15 minutes to let crust harden.

3. Remove from freezer and spread half of the ice cream over the chilled chocolate crust. Cover with plastic and return to freezer for about 30 minutes, or until just firm. Sprinkle the reserved chocolate crumb mixture over the chilled ice cream and return to freezer again to chill, for about 30 minutes. Spread the remaining ice cream evenly over the top and smooth completely with an offset spatula. Cover and chill in the freezer for a minimum of 4 hours, or overnight to completely firm the cake.
4. Before serving, remove the ice cream cake from the pan and press the chopped pistachios around the sides of the cake. Serve on chilled plates.

*Nutritional information per serving:*  
Calories 490 (63% from fat) • carb. 39g • pro. 8g • fat 36g • sat. fat 19g  
• chol. 190mg • sod. 250mg • calc. 125mg • fiber 2g

### Caramel Sauce

*While we love this sauce on ice cream, it can also be used as a dipping sauce for fruit and cake.*

Makes about ¾ cup (175 ml)

- ¾ **cup (175 ml) granulated sugar**  
¼ **teaspoon (2 ml) kosher salt**  
¼ **cup (60 ml) water (enough so that the consistency when mixed with the sugar and salt is similar to wet sand)**  
1 **tablespoon (15 ml) light corn syrup**  
½ **cup (75 ml) heavy cream**  
3 **tablespoons (45 ml) unsalted butter, cut into ½-inch (1.25 cm) cubes**
1. In a medium, heavy-bottomed saucepan, stir together the sugar, salt, water and corn syrup. Be sure to clean the inside walls of the pan if there is any sugar on the sides (a clean, wet pastry brush works best). Set over medium-low heat, to keep the mixture at a low simmer, and cook until the sugar mixture turns a very light amber colour (about 15 to 20 minutes). Keep a close eye on the caramel sauce as it can burn easily.

2. Once the sugar mixture has a light amber colour, take it off the stove and slowly and carefully stir in the cream. After the cream has been incorporated, slowly whisk in the butter, one piece at a time, continually whisking to emulsify until all the butter has been added. Use immediately, or keep warm over a pot of warm water.
- Nutritional information per serving (2 tablespoons (30 ml)):*  
Calories 158 (46% from fat) • carb. 27g • pro. 0g • fat 10g • sat. fat 7g  
• chol. 33mg • sod. 184mg • calc. 9mg • fiber 0g

**Hot Fudge Sauce**

*No sundae bar is complete without homemade hot fudge.*  
Makes about 2 cups (500 ml)

- 1/2 cup (150 ml) heavy cream**  
**1/2 cup (75 ml) light corn syrup**  
**1/2 cup (75 ml) packed light brown sugar**  
**1/4 cup (60 ml) cocoa powder, sifted**  
**1/4 teaspoon (1 ml) kosher salt**  
**2 tablespoons (30 ml) unsalted butter**  
**1 teaspoon (5 ml) pure vanilla extract**  
**6 ounces (170 g) semisweet chocolate, chopped**

1. In a heavy-bottomed saucepan, combine all ingredients except for semisweet chocolate. Set over medium-low heat and bring to a slight boil. Add chocolate and whisk to combine.

*Nutritional information per serving (2 tablespoons (30 ml)):*  
Calories 133 (53% from fat) • carb. 15g • pro. 1g • fat 8g • sat. fat 5g  
• chol. 18mg • sod. 15mg • calc. 11mg • fiber 1g

**Raspberry Sauce**

*This works well with more than just frozen desserts.*  
*Serve over pancakes or crêpes for your loved ones.*  
Makes about 1 cup (250 ml)

- 1 12-ounce (340 g) bag frozen raspberries,**  
**thawed [about 2½ cups (625 ml)]**

- 1 to 2 tablespoons (15 to 30 ml) granulated sugar**  
**Pinch kosher salt**  
**Pinch orange zest**

1. Put all of the ingredients into a Cuisinart® Food Processor fitted with the chopping blade. Process until completely smooth. Strain through a fine mesh strainer and discard the seeds. Taste and adjust sugar amount to personal preference.

**WARRANTY**  
**LIMITED THREE-YEAR WARRANTY**

We warrant that this Cuisinart product will be free of defects in materials or workmanship under normal home use for 3 years from the date of original purchase. This warranty covers manufacturer's defects including mechanical and electrical defects. It does not cover damage from consumer abuse, unauthorized repairs or modifications, theft, misuse, or damage due to transportation or environmental conditions. Products with removed or altered identification numbers will not be covered.

This warranty is not available to retailers or other commercial purchasers or owners. If your Cuisinart product should prove to be defective within the warranty period, we will repair it or replace it if necessary. For warranty purposes, please register your product online at [www.cuisinart.ca](http://www.cuisinart.ca) to facilitate verification of the date of original purchase and keep your original receipt for the duration of the limited warranty. This warranty excludes damage caused by accident, misuse or abuse, including damage caused by overheating, and it does not apply to scratches, stains, discolouration or other damage to external or internal surfaces that does not impair the functional utility of the product. This warranty also expressly excludes all incidental or consequential damages.

Your Cuisinart product has been manufactured to the strictest specifications and has been designed for use only in 120 volt outlets and only with authorized accessories and replacement parts. This warranty expressly excludes any defects or damages caused by attempted use of this unit with a converter, as well as use with accessories, replacement parts or repair service other than those authorized by Cuisinart.

If the appliance should become defective within the warranty period, do not return the appliance to the store. Please contact our Customer Service Centre:

**Toll-free phone number:**  
1-800-472-7606

**Address:**  
Cuisinart Canada  
100 Conair Parkway  
Woodbridge, Ont. L4H 0L2  
**Email:**
