Clabel trade

3. How to Connect to "Clabel trade" APP？

1.Turn on Phone Bluetooth.

2.Open the"Clabel trade"
App, and click the button
in the upper right corner.

3.Find the 220B device
and connected.

4. Where to turn on the machine? And how to tear off the printing paper?

Long press the power supply button
for 2 seconds, then you can start to print

Face the serrations and tear the label
paper down.

5. What is the width of the label paper? And what is the function of the Baffle of the paper bin?

Label Width: 20-55mm

Adjustable

20 25 30 35 40 45

1. Put label paper width 20-55mm (0.78-2.95inch) in the paper bin. The effective print width is 48mm (1.88inch). The baffle has a lock button, which can be used to unlock/lock the bezel.

2. This can fix the label paper in the paper bin and make the printing process more stable.
