

**Q: Is it possible to charge other devices while charging the battery pack?**  
A: No, it'll cause detrimental effects on the lifespan of the battery pack.

**Q: Can I take it with me for international travel?**  
A: Yes, it can be used internationally. Just be sure that use a compatible adapter converter with the voltage of the country you're travelling to.

**Q: Can it be taken on board airplanes?**  
A: Yes, all external batteries with capacity under 27027mAh / 100 watt hours can legally and safely be taken on board airplanes. For your reference, the capacity of this portable charger is 10000mAh / 36 watt hours.

**Q: How long will the battery capacity last if not used?**  
A: Generally, we recommend discharge and charge the battery pack at least once every 4 months to extend the battery lifespan.

**Q: Can I use it to charge low power consumption devices?**  
A: The output will be cut off in 5s if the current is lower than 50mA, so we do not suggest that you use this power bank for such purpose. It's designed for mobile devices, please use it only that way.

Model: HYD059

## Power Bank

# miady

HYD059

User Manual

Please read this manual before using the product and keep it for future reference.

### Specifications

**Capacity:** 10000mAh / 36Watt hours

**Input**

TYPE-C Input: 5V/3A 9V/2A

**Output**

USB Output: 5V/3A 9V/2A 12V/1.5A 10V/2.25A (22.5W)

TYPE-C Output: 5V/3A 9V/2.22A 12V/1.67A 10V/2.25A

Wireless output: 2W

**Size:**

55.5mm\*110mm\*27mm

### Package Content

Miady 10000mAh Power Bank \* 1

USB-A to USB-C Cord \* 1

User Manual \* 1

### Recharge your power bank

- Please use the attached USB-C cord to recharge the power bank
- Please make sure using a compatible charger adapter
- For faster recharging, please make sure the adapter is higher than 20W.

### Charge your device

- Connect your device to the power bank and it will automatically start charging;
- You can also press the power button to check capacity level;
- 1. The green LED indicates the power bank is in fast charging mode.

### Caution

1. The total output would be 15W when 3 devices are connected to the power bank at the same time;
2. Keep the power bank away from liquids or any heat source;
3. Please do not dismantle the product;
4. Fully charge the battery pack at least once in every four months;
5. Dispose of battery under local legal environmental terms;
5. Do not charge your devices while the battery pack is being charged.

### Warranty

Miady portable chargers are covered by an 18 month limited warranty from the date of its original purchase. If any problem occurs, please contact our support team.

### FAQ

**Q: What's the output efficiency of this portable charger.**

A: The output efficiency of this unit around 85%, approximately 15% of the battery capacity is unable to be used because of power consumption of circuit heat, conversions from the battery, the charging cable, etc. Actual charging efficiency may vary.

#### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
