8 The Keychron Launcher App

Please visit launcher.keychron.com to access the Keychron online Launcher app. This app enables users to remap keys, adjust key actuation points, assign multiple commands to a single key, enter game controller mode, and more.
If it cannot recognize your keyboard, please reach our support to get instruction.

Keychron

*The online launcher app can only run on the latest version of Chrome, Edge, and Opera browsers yet.

9 The Layers

There are four layers of key settings on the keyboard. The layer 0 and layer 1 are for the Mac system. The layer 2 and layer 3 are for the Windows system.
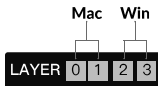

If your system toggle is switched to Mac, then the layer 0 will be activated.

If your system toggle is switched to Windows, then the layer 2 will be activated. Remember that if you are using it in Windows mode, please make changes to the layer 2 instead of the top layer (the layer 0). This is a common mistake people are making.
