

What are Backer Boards and Underlayments?

- Backer boards and underlayments provide a uniform surface for adhesion to tile, stone, paint, wallpaper or resilient surface materials.
- Backer boards and underlayments are for use on interior walls, floors and countertops.
- Install backer board and underlayments when building or remodeling an interior space that will come into contact with water.
- Most local building codes require the use of backerboard or underlayment under tile in wet areas such as bathtub and shower surrounds.
