insert x1

4mm flathead
wood screw
(brass) x4

4mm crosshead
wood screw
(steel) x1

Southbank
handle x1

TOOLS YOU'LL NEED

Drill

2mm drill bit

Router or
chisel

Crosshead
screwdriver

Flathead
screwdriver

Handle with plate

Trace around the back of the plastic mortice insert to mark the position of the pocket.

Make a recess in the window frame at least 18mm deep. We recommend using a router for best results.

Optional: If a flush fit is desired, trace around the plastic mortice insert and create a recess 2.5mm deep.

Use the plastic mortice insert to mark out the mounting holes and drill pilot holes.

Use the steel crosshead screw to tap holes.

Fasten the plastic mortice insert in place by removing the crosshead and replacing with a brass slotted screw.

Handle with plate

Hold the handle on the window frame and mark the position of the mounting holes. Make sure the handle is in its rest position and that the window can be opened and closed freely.

Drill pilot holes as marked.

Use the steel crosshead screw to tap holes for the handle.

Fasten the handle in place by removing the crosshead and replacing with brass slotted screws.

Window stay

INCLUDED

TOOLS YOU'LL NEED

Window stay

1 Hold the stay and stay pins on the window frame in the desired position. Mark out the positions of the mounting holes.

2 Drill pilot holes as marked.

3 Use the steel crosshead screw to tap holes for the stay pins.

4 Fasten the stay pins in place by removing the crosshead and replacing with brass slotted screws.

5 Use the steel crosshead screw to tap holes in the window frame for the stay.

6 Fasten the stay in place by removing the crosshead and replacing with brass slotted screws.

Handle with hook

INCLUDED

TOOLS YOU'LL NEED

Handle with hook

Position the hook plate on the window frame. Mark out the positions of the mounting holes.

Drill pilot holes as marked.

Use the steel crosshead screw to tap holes for the hook plate.

Fasten the hook plate in place by removing the crosshead and replacing with a brass slotted screw.

Use the steel crosshead screw to tap holes for the handle.

Fasten the handle in place by removing the crosshead and replacing with a brass slotted screw.

Window handle

INCLUDED

Southbank
handle x1

Spindle x1

4mm crosshead
wood screw
(steel) x1

4mm slotted
wood screw
(brass) x2

TOOLS YOU'LL NEED

Crosshead
screwdriver

Flathead
screwdriver

Window handle

Push the 7mm spindle into the back of the handle.

Place the handle with spindle into the window mechanism and check that the mounting holes line up.

Use the steel crosshead screw to tap holes for the handle.

Fasten the handle in place by removing the crosshead and replacing with a brass slotted screw.
