CORSTON
ARCHITECTURAL DETAIL

# Handle with plate

INCLUDED

Face plate x1
Southbank handle x1
Plastic mortice insert x1

4mm flathead wood screw (brass) x4
4mm crosshead wood screw (steel) x1

## TOOLS YOU'LL NEED

Drill

2mm drill bit

Router or chisel

Crosshead screwdriver

Flathead screwdriver

Handle with plate

1

Trace around the back of the plastic mortice insert to mark the position of the pocket.
2

Make a recess in the window frame at least 18mm deep. We recommend using a router for best results.

3

Optional: If a flush fit is desired, trace around the plastic mortice insert and create a recess 2.5mm deep.

4

Use the plastic mortice insert to mark out the mounting holes and drill pilot holes.
5

Use the steel crosshead screw to tap holes.

6

Fasten the plastic mortice insert in place by removing the crosshead and replacing with a brass slotted screw.
Handle with plate

7

Hold the handle on the window frame and mark the position of the mounting holes. Make sure the handle is in its rest position and that the window can be opened and closed freely.
8

Drill pilot holes as marked.

9

Use the steel crosshead screw to tap holes for the handle.
10

Fasten the handle in place by removing the crosshead and replacing with brass slotted screws.
Window stay

INCLUDED

Stay x1

Stay pin x2

4mm crosshead
wood screw
(steel) x1

4mm slotted
wood screw
(brass) x6
