

Available in 40 and 60 Imperial Gallon Electric Models

► Lifetime Limited Tank Warranty* ► 5 Year Limited Parts Warranty*

- The seamless, blow-molded, polybutylene tank is impervious to rust and corrosion
- Multiple layers of filament wound fiberglass give the tank unmatched strength
- The tank is designed, built and warranted not to leak "for as long as you own your home"
- Envirofoam insulation is free of ozone depleting CFC's and HCFC's so it saves the planet and it saves energy
- Pipe wrap energy kit included to reduce heat loss from plumbing lines
- Recessed drain valve is out of the way of brooms and scrubbers
- Tough molded outer shell resists dents and scratches
- Factory installed temperature and pressure relief valve for greater value and security
- Conduit between control boxes facilitates wiring for "off-peak" use
- All plastic tank eliminates the need for an anode rod – preventing potential odor problems
- C191.1 CSA Energy Efficiency

CONSTRUCTION FEATURES

1. **Energy Saving Pipe Wrap Kit** – reduces heat loss through plumbing lines.
2. **Temperature and Pressure Relief Valve** – factory installed.
3. **Water Tight Grommets** – keep out overhead moisture and condensation.
4. **Seamless Molded Non-metallic Inner Tank** – can't rust or corrode.
5. **Fill Tube** – high temperature material to withstand thermal storage and other high temperature applications.
6. **High-tech Heating Elements** – upper element fused to protect tank against "dry fire". Bottom element low watt, stainless steel for long life.
7. **Polyethylene Outer Jacket** – resists dents and scratches during transit, installation and beyond.
8. **Envirofoam™** – a great energy saver and friendly to the ozone layer. It's made without CFC's and HCFC's.
9. **Fiberglass Tank** – has unmatched strength.
10. **Recessed Drain Valve** – protected from damage.

Your Marathon is warranted not to leak for as long as you own your home*..

The Marathon offers this no-leak promise because of its superior, non-metallic PermaGuard tank construction...A seamless blow molded polybutylene inner tank with a filament wound fiberglass outer tank for maximum strength. Superior performance, high-efficiency and low operating cost...for a lifetime*!
