

- **Portable & Fast Ice Making:** This portable countertop ice maker can make crunchy, chewy ice cubes in a quick 8 minutes. It can produce 6 lbs of ice within 2 hours and 62 lbs of ice within 24 hours, giving you a continuous supply of ice cubes.
- **Outstanding Protective Features:** The ice maker has a self-cleaning function, so you don't have to clean it manually. This function allows for an 8-minute rinse to remove any dirt inside the container. And it comes with intelligent UV function, which starts immediately upon startup, always protecting your health.
- **Intelligent Mode:** This ice machine is equipped with anti-freeze cylinder mode. If the outdoor temperature is too low, it will automatically start, and does not affect the normal use of ice extraction. Power off memory mode: it can automatically demould and make ice after power is restored, no need to manually demould.
- **Keep the Cold in:** The portable ice maker has a 2.5mm foam layer, stainless steel shell and three layers of insulation material, allowing it to keep ice for over 8 hours in case of power failure.
- **Humanized Accessories:** With 2 sections of a total of 118 "water filling hose, 1 section of 39 "drain hose, 1 water filter, adjustable feet and an extra-long hose to meet your needs.
