Product&Notes

What's in the Box

- Lumary Smart Neon Rope Light

PACKAGE CONTENTS

PART	DESCRIPTION	QUANTITY
A	Light	1
B	Buckle	5PCS/m
C	Rubber plug	5PCS/m
D	Screws	5PCS/m
E	Remote controller	1

NOTE:

- Lumary's products don't recommend that you use dimmers because flicker may occur during use.
- Make sure your mobile device meets the following requirements:
For iOS: Ensure your device is running iOS 17 or higher.
For Android: Ensure your device is running Android 12 or higher.
- Ensure that you are connecting to a 2.4GHz Wi-Fi network as Lumary devices are not compatible with 5GHz networks.

IMPORTANT SAFETY INSTRUCTIONS

Product Size

Button Functions:

1. Hold down the button for 5 seconds to enter network configuration mode. Upon powering up, the factory-set equipment will automatically make the lights flash.
2. A single press changes the mode, which varies with each press.
3. Pressing the button twice quickly will turn the device off. It will remember the color or the state from before the last time it was turned off.

(Note: A long press of 5 seconds, in any mode, will initiate the network configuration mode.)

Bending direction matters needing attention

INSTALLATION INSTRUCTIONS

Installation diagram

Fastener installation

1.Ensure that the installation surface is clean and smooth.

2.Fasten the fastener to the mounting surface with screws.

3. Then press the lamp belt into the buckle to complete the installation.

DIY Key Points:

1. Neon Light Strips for Home Decor

Commonly used for ambient lighting in homes, commercial spaces, and festive events due to their flexibility and aesthetic appeal.

Popular techniques include accenting walls, furniture, ceilings, and DIY art projects like custom signs or decorative patterns.

2. Creative Applications in Home Settings

Walls and Furniture: Create geometric shapes or backlighting for a modern touch.

Ceilings and Floors: Install for starry effects or safety and visual enhancement in staircases.

DIY Projects: Design neon art or personalized quotes for unique home accents.

3. Festive and Functional Uses

Enhance holiday decorations (e.g., Christmas trees) or party themes with vibrant lighting.

Provide functional lighting for plants, bookshelves, or mirrors while adding style.

Pairing Your Device with Lumary App

What You Need:

- A Wi-Fi router supporting the 2.4GHz and 802.11b/g/n bands. 5GHz is not supported.
- A smartphone running iOS or Android.

1. Download the "Lumary" App from the App Store or Google Play.
2. Register a Lumary account.

Note: Please select your region and country.

3. Connect

NOTE: Lumary's products can't connect to 5GHz networks.

Steps:

1. Turn on your smartphone's Bluetooth;
2. Open the Lumary App, In the top corner of the Devices screen, click "+" and select "Add Device" to confirm that the device is paired.
3. Each time the device without distribution network is powered on, confirm the light is breathing or blinking pairing mode;
If not, you need press and hold the controller for 5 seconds, and the light will enter a breathing state.;
4. Find the device, choose Wi-Fi and enter password, press "Next".
Click "Add", and wait patiently. After that, click "Done", and the device is successfully added to the App.

If you have any questions. You can contact us via our after-sales email: support@lumary.tech or leave a message on our official social media account.

Made in China

Remote Control

The remote control can operate both networked and unconnected devices. Here's how to handle each scenario:

1. For unconnected devices:

- Wait until the device stops flashing.
- Press the on/off button for 3 seconds. Note that this method is not recommended.

2. For devices connected to the network:

- Power off and then on the device.
- Long press the on/off button for 3 seconds.
- The light will blink to indicate successful pairing.

Troubleshooting

1. Can't connect the light to Lumary App.

- Check whether the downlight is powered on.
- Check whether your smartphone Wi-Fi is enabled.
Please make sure Wi-Fi connected to your phone is 2.4GHz (5GHz band is not supported).
- Make sure your smartphone is close to the device when connecting for the first time.
- Check if you have entered the correct Wi-Fi password during Wi-Fi setup.
- Make sure the distance between the bulb and router is less than 50ft.
- If you fail to bind, you will need two phones, one to set the hotspot and the other to connect the hotspot and add the device through the app. If the device is successfully added, the device is normal. The problem may be in the router, you need to check your router Settings to see if there are MAC and DHCP restrictions.

2. Can I group multiple Lumary devices together?

- Yes, you can group multiple lights and other Lumary devices by Schemes, Same model, General (Wi-Fi or Bluetooth devices).
It depends on the function of different devices.

If you have any questions. You can contact us via our after-sales email: support@lumary.tech or leave a message on our official social media account.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
