How to Use

How to switch views?

On the simulator page, press **START** to switch between flow view and grid view.

How to search game?

To search for games across all emulators, press the SELECT button on the emulator page. Alternatively, you can open the menu by pressing the MENU button, select "Search", and press the A button to initiate the search.

How to edit the emulator list?

You can open the menu by pressing the MENU button, select "Edit", and press the A button to initiate edit mode. To check or uncheck the checkbox, press A. To select the simulator you want to display, check it. To remove the check for the simulator you want to hide, uncheck it. Press B to display a window asking if you want to save the changes. Select "Ok" and press A to confirm the save and finish editing.

How to start netplay with other people via LAN?

1. Make sure all players have the same game ROM; 2. All players are connected to the same WLAN; 3. All players turn on the netplay function in the "System"; 4. Host player enter the game directly; 5. After a while, the slave players will be able to discover the game found on the host in "Netplay". The slave can select it and press A to join the game.

[NOTE] Please wait until the host is playing the game before the slave joins the game. If the host only starts the game but does not play the game, the slave may fail to join the game at this time.

How to start netplay with other people via hotspot?

1. Make sure all players have the same game ROM; 2. Host player open hotspot, slave players connect the hotspot; 3. All players turn on the netplay function in the "System"; 4. Host player enter the game directly; 5. After a while, the slave players will be able to discover the game found on the host in "Netplay". The slave can select it and press A to join the game.

[NOTE] Please wait until the host is playing the game before the slave joins the game. If the host only starts the game but does not play the game, the slave may fail to join the game at this time.
