

Beach Cabana Shelter UV50

(Medium – 2x2m)

KDCABNAVYSB & KDCABYLLWSA

Safety & Warnings

- Do not use the shelter in extreme weather conditions such as strong winds or storms
- Ensure all poles are properly secured into the sand before use
- Do not leave the shelter unattended in public areas
- Check all components before each use to ensure they are not damaged
- Ensure children are supervised while using or near the shelter
- Keep all packaging materials away from children
- Always dismantle and pack away the shelter when not in use to avoid damage from prolonged exposure to sun or wind.

Assembly

Step 1:

Open the rope button from storage bag and take out the beach cabana shelter. Please pay attention to the accessory's white clothes-hook and cabana stakes bag.

Step 2:

First insert the bottom screw into the beach as shown in Figure 01 and the depth position is shown in Figure 02. If the wind is strong, try to bury the pole deeper until the beach cabana can stand more firmly. Then open the cabana and hold it to the top bayonet, as shown in Figure 03. Place the white cloths-hook fittings in the middle of the two poles then hanging your cloths as Figure 04 and Figure 05, the height can be adjusted after installing the beach cabanas.

Figure 5

Step 3:

Fill the four corners of the beach umbrella with sand to keep the four corners with balance as Figure 06. Then insert the cabana stakes into the beach from the bottom of the sandbag, which can increase the balance of the beach cabana shelter. There are 8pcs of internal pockets for your storage as mobile phone, keys, sunglasses and etc as Figure 07.

Note: Fill the three sandbags of sidewall with sand to get full shade under the cabana.
