

# Fiilex

## V3

### User Guide

#### Safety Instructions

- DO NOT obstruct the fixture's air vents.
- DO NOT install the light fixture in damp locations.
- DO NOT disassemble the light fixture. This will void the warranty.
- DO NOT look into the light source. Be cautious of the high-intensity beam.
- Use a safety cable (not included) when rigging the light fixture overhead.
- Shields and lenses shall be changed if they have become visibly damaged.
- If damaged, the luminaire must be repaired or replaced before further use.
- Only use Fiilex-approved power supply and accessories. Failure to do so may damage the fixture and will void the fixture's warranty.

#### Parts Diagram

031725A

Twist the clamp handle (1) clockwise to loosen the clamp.

Insert the clamp at the side of desired surface. Twist the clamp handle (2) counter-clockwise to mount the fixture to the side of table.

Rotate the adjustable arm (3) to desired location and twist the rotation locking knob (4) to secure the position of the lamp.

Twist the ball joint handle (5) counter-clockwise to release V3 head. After adjusting the V3 head to the desired angle, reverse the process to secure.
