T30S

Antitangle main brush

prevents dust from escaping and has dense bristles for excellent cleaning power and is suitable for types of floors.

High Efficient Cleaning

The three-armed side brush sweeps twice as much as the single armed side brush during rotation effectively clean dirt, dust and debris from corners and edge.

Mop Pads

Washable

Sticky Tightly

Microfiber

Filters

Our filters effectively clean 99.97% of dust, pollen, pet hair and other particles. The filter stops dust from entering the internal parts of the vacuum cleaner, reducing wear and tear on the machine and extending the life of the vacuum cleaner.
