| MONSGEEK

Shenzhen Yincheng Technology Co., Ltd

Shenzhen Yincheng Technology Co., Ltd is a leading manufacturer and supplier of mechanical keyboards. Yincheng offers OEM and tailored ODM services with a strict 45-day lead time for our clients in over 50 countries. The factory is ISO compliant, ensuring high-quality standards are maintained throughout the production process.

In addition to OEM & ODM services, our factory has launched two popular brands, Akko and MonsGeek, which have gained a strong reputation in the industry for their quality and innovation.

Software Solutions

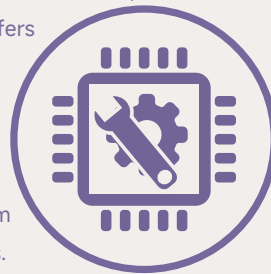

Tailored Software

Yinchen proudly presents its matching software solutions for both Mac OSX and Windows, setting new standards in keyboard customization. Our comprehensive software empowers users to effortlessly customize RGB settings, program intricate Macros, and establish customized layers. Additionally, our software supports advanced features, including audio visualizers, suitable for both wired and wireless 2.4G configurations.

QMK/VIA

Yinchen is capable of integrating our keyboards with the popular open-source QMK/VIA software, based on our clients' needs. QMK/VIA offers advanced cross-platform keyboard programming, in addition to regular keyboard software, and is widely favored by custom mechanical keyboard users.
