

# Orchestrate + TLK 25: Automate and streamline security

In critical situations, every second counts. Efficient communication is key. Triggers through Orchestrate initiate TLK 25 device notification, bringing teams together and enhancing incident response.

## Benefits

Improved response time | Enhanced communication | Reduced risk

## Example workflow

## Integration outcomes

In moments of uncertainty, getting the right information to the right people at the right time is critical.

- **Effective response:** address security incidents efficiently and with greater coordination.
- **Enhanced staff communication:** share critical information quickly to all relevant parties.
- **Asset protection:** keep staff, customers and inventory safe when critical events occur.
- **Scalable workflows:** create templates to scale workflows across locations, ensuring consistency.
- **Prevent escalation:** mitigate potential security risks and create a safer environment for staff and patrons.

## How to connect

### Technical requirements:

- TLK 25 device
- WAVE PTX SafeGuard subscription
- Connected Services Solution
- Current Orchestrate software
