

10kg Series 7 Top Loader Washer, UV Sanitise

Series 7 | Top load

White

This top loader is easy-to-load and has a specially designed pillow drum for gentle wash action to help you take better care of your clothes.

- Auto-dose mode dispenses just the right amount of liquid detergent based on the size of your load
- Specialised UV Sanitise wash modifier to kill more than 99.99% of bacteria*
- Auto load sensing uses just the right amount of water for best wash results

- Impressive 4.5 star energy and 4 star water rating
- Eco wash option reduces energy and water consumption for a more optimised wash

DIMENSIONS

Height	1095 mm
Width	640 mm
Depth	650 mm

FEATURES & BENEFITS

Health And Hygiene

The specialised UV Sanitise wash option uses UV light to help kill more than 99.9% of bacteria for long-lasting fabric care.*

Auto Load Sensing

Intelligent sensors determine load size and soil level before using just the right amount of water for best wash results and optimal fabric care.

Star-Rated Energy And Water

This top loader washing machine boasts a 4.5-star energy rating and a 4-star water rating.

Efficient Water And Energy Usage

The Eco wash option uses less energy and water during a wash cycle making this top loader a great eco-friendly option. A bionic lint filter helps prevent lint, fibres and other debris going back into grey water, for more efficient cleaning and rinse cycles.

Easy To Use

This machine has a cycle to suit every type of load including Bulky, Extra Care and Wool. Select a cycle with the easy to use SmartTouch™ control dial.

Soft-Close Lid

The tough glass lid delivers quality and durability. Its soft close mechanism makes it family safe, avoids slamming and allows for hands-free operation.

SPECIFICATIONS

Capacity	10 kg
----------	-------

Consumption

Energy rating	4.5 star
Estimated Yearly Energy Usage (kWh)	263kWh/year
In-use energy carbon emissions estimate	160.5kgCO2e/year
Water consumption per cycle	102L
Water rating	4 star (WELS)

Controls

Control type	Capacitive touch display

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
