Instructions for Installation and Care of 2019 Polaris RZR Soft Rear Window

PO-19RZR-RW01

Notice: Do not smoke inside the cab or expose the enclosure to direct flames. Cab is Flammable.

1. Be sure to read these instructions thoroughly before opening and installing the 2019 RZR Soft Rear Window.

2. Check over the parts included in the carton with the parts list shown below:

Velcro Hook strips:

“	“	12 each	3” long
“	“	2 each	5” long
“	“	1 each	24” long
“	“	2 each	26” long

Snap studs 6 each (1 extra)

3. Installation of your Soft Rear Window is quite simple. Take the 5 adhesive velcro strips provided and attach them to the roll cage around the perimeter facing the rear of the vehicle. Take the Soft Rear Window and attach it to the vehicle.
4. Lastly install the snaps along the bottom of the window. It works best to pop the snaps into the sockets first. Then push the screw end into the plastic to make an indentation or mark. Then pull the snap out and screw it into the plastic.
