

HP Roam for Business

Print redefined for the mobile workstyle

Mobile professionals can now submit print jobs while on the go from any device, and release at any HP Roam-enabled office printer—simply and securely. HP Roam for Business is a universal printing experience that reshapes how innovative organizations print. You can replace traditional, printer-specific drivers with an intuitive print experience that is simple to use, scalable, and provides a natural experience across desktop and mobile devices. Customer and company data are protected by advanced security features.

¹ To enable HP Roam for Business, all Enterprise and Enterprise Managed devices must be upgraded to FutureSmart 4 v4.7+. FutureSmart 4 v4.7+ will also enable automatic configuration of HP Jetdirect 3100w accessory, and manual configuration (via HP Roam mobile app) of RadBeacon USB accessory. All Enterprise and Enterprise Managed devices that have been upgraded to the latest version of FutureSmart 4, as previously indicated, can support the HP Roam Embedded Printer application.

² Available from HP - P/N RADUSB.

³ FutureSmart 4 v4.9.0.1 enables automatic configuration of RadBeacon USB accessory when connected in the USB port of the printer/MFP.
