

The image displays a grid of 12 pages from the Picnic ANC-02Pro manual, arranged in two rows of six. The pages are labeled with the Picnic logo and the model name 'ANC-02Pro'.

- Page 1 (Top Left):** Introduction and safety warnings. It includes a table of contents and a list of safety instructions.
- Page 2 (Top Left):** Specifications and technical details. It includes a table with the following data:

Parameter	Value
Model	ANC-02Pro
Power	100W
Voltage	220V
Frequency	50/60Hz
Weight	1.2kg
Dimensions	150x150x150mm
- Page 3 (Top Left):** Assembly instructions. It includes a diagram showing the correct way to assemble the device.
- Page 4 (Top Left):** Operation instructions. It includes a diagram showing the correct way to use the device.
- Page 5 (Top Left):** Maintenance instructions. It includes a diagram showing the correct way to clean the device.
- Page 6 (Top Left):** Troubleshooting instructions. It includes a table with the following data:

Problem	Solution
Device does not start	Check power supply and connections.
Device overheats	Stop using the device and allow it to cool down.
Device makes noise	Check for obstructions and clean the device.
- Page 7 (Top Left):** Warranty and contact information. It includes a table with the following data:

Country	Warranty Period
Germany	2 years
France	2 years
Italy	2 years
Spain	2 years
UK	2 years
- Page 8 (Top Left):** Index and glossary. It includes a list of terms and their definitions.
- Page 9 (Top Left):** Declaration of Conformity. It includes a statement of compliance with European standards.
- Page 10 (Top Left):** Environmental information. It includes a statement of compliance with environmental regulations.
- Page 11 (Top Left):** Contact information. It includes a list of contact details for Picnic.
- Page 12 (Top Left):** Picnic logo and model name.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ -Reorient or relocate the receiving antenna.
- ▶ -Increase the separation between the equipment and receiver.
- ▶ -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ -Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
