

## REFRIGERATION RANGE

Australians love  
a Kelvinator

# Australians love a Kelvinator

For over 90 years, Kelvinator has been delivering reliability and performance to Australian families. It's a brand Aussies trust to get the job done well. And it's easy to see why. There's peace of mind in knowing that with Kelvinator, you'll be comfortable for years to come.

## Discover the perfect blend of functional design and practical innovation.

Bring a Kelvinator into your home and you'll never look back. Designed for simplicity, longevity and superior performance, you can simply sit back and enjoy the benefits.

### Brand

Tried, tested and trusted, Kelvinator won't let you down. All Kelvinator products go through rigorous testing to ensure they meet stringent Australian quality standards.

### Heritage

If anyone knows refrigerators, it's us. With 90 years experience in refrigeration, you know your Kelvinator is a product backed by years of innovation and the highest standards of quality.

### Expertise

If you ever need a hand, help is never far away. Kelvinator refrigerators are backed by our Australia-wide Top Service after sales program, which includes delivery, home service and spare parts.

### **Top mount fridges**

The classic fridge below freezer style maximises your fridge storage and has an easy to access freezer for everyday use.

Kelvinator fridges are available in a fingerprint-resistant polar white finish, making cleaning a breeze.

### **Side by Side fridges**

With a generous 620L storage capacity, spacious interiors and an ample freezer, this family sized fridge will cater for all your food storage needs.

### **Quality you can trust**

Kelvinator has built upon its trusted heritage to produce modern, easy-to-use fridges and freezers, proudly designed for Australian conditions. You can relax knowing Kelvinator has a refrigerator that's perfect for your needs and whichever one you choose, it will be with you for years to come.

### **The greener choice**

Kelvinator refrigerators use the less harmful R600a refrigerant. That means every day, your refrigerator can quietly play its own part in reducing the household's impact on the environment.

**R600a**

# top mount refrigeration features

The classic fridge below freezer style maximises your fridge storage and has an easy to access freezer for everyday use.

- 1 Separate temperature controls for fridge and freezer

# choosing the right refrigerator

The right type of refrigerator is the one which best suits your needs.

1. When buying a fridge to fit a cavity or exact space, make certain you allow for air space to ensure your appliance operates at optimal performance (refer to 'Dimensions and Installation guide' on the next page for more details).

2. Make sure your fridge's interior is easy and quick to clean. SpillSafe shelves are a great way to contain accidents and being glass they just wipe clean. A cloth with warm soapy water is much more convenient than special chemicals or cleaning agents.

3. Make sure you have the right sized fridge for your needs. Rather than having a new fridge for daily use and an older 'spare' fridge that is always on and drains power, it may pay to buy a bigger fridge to replace both.

## Integrate your fridge without the fuss

Specialised 120° wide opening hinges

### Easy and simple

The Kelvinator Integrated Refrigeration Kit offers a simple and precise solution for a seamless kitchen. The specialised Kelvinator hinges also allow the fridge door to open to a wide 120°, making it easier to access food as well as clean and remove shelves. Everything you need to integrate your fridge – including the hinges – is provided in one complete package, avoiding unnecessary running around and hidden costs.

Blend seamlessly behind your cabinetry

### How does it work?

The kit is designed to fit a wide variety of Kelvinator fridges. It utilises a sliding system which fixes the outer door of the fridge to the kitchen cabinet. When the cabinet door is opened, the connecting rail opens the fridge in one smooth and simple motion.

Models that can be used with the IK007 Integration Kit:  
KTM5200, KTM4200
