Say hello to Beko

Reliability, quality, energy efficiency and great value are just some of the reasons that more people every day choose from the Beko range of kitchen, laundry and cooling solutions. Beko is the first choice of 440 million consumers in more than 100 countries.

In business for more than 50 years, Beko began really building a global name in the 1990s through a simple, powerful ideal: improve the life of every customer, every day. People worldwide agree. It's the reason Beko is the UK's number 1 choice for fridges, freezers and washing machines.

Alongside the domestic demands of scores of different cultures and ways of life, Beko products are a constant in making lives easier. We are driven by more than just smart designs. Making your life easier is our life's work!

Big numbers speak loudly, and there are millions of people whose household runs better with Beko. But we don't need to speak loudly.

All we want to say is 'hello, come take a look'.

A Leading European Home Appliance Brand

OUR PURPOSE

Beko provides smart solutions to improve your life every day.

Built on functional designs, efficiency and technology, Beko is inspired by your needs. Your insights allow us to develop smart solutions that exceed your expectations. And now we bring our market-leading European kitchen and laundry solutions to you.

OUR TECHNOLOGICAL APPROACH

Beko creates a truly user-focused experience.

We listen to you, and that means we can bring efficiency and functionality into your life. Our ongoing research and development allows Beko to provide you with the latest product innovations at affordable prices. We focus on creating a true user experience.

OUR ENVIRONMENTAL POLICY

Beko works to improve the environment.

Beko is dedicated to reducing the impact of its products and production processes on the environment. We start by designing our washing machines, fridges and ovens to be energy efficient and recyclable. At Beko we are determined to reduce our carbon footprint and environmental impact.

The Beko range of french door refrigerators for a more stylish looking kitchen

French Door Refrigerator

French door refrigerators create a more stylish looking kitchen and also have double doors that swing out, giving access to a full-width refrigerated area. This creates the ability to store larger items, such as fish or pizzas.

French Door Refrigerator GNE 60520 DX

- Adjustable spill-safe glass shelves
- Half-width humidity controlled crispers
- Two separate freezer drawers
- Automatic ice machine
- Chiller compartment
- LED illumination
- Digital display
- Door alarm
- Water dispenser
- Bottle rack
- W840 x H1825 x D740mm

2 star energy rating

NeoFrost, frost-free triple cooling

Active odour filter

Active ioniser

Active fresh blue light

Active seal guard

610L Gross volume

Four Door Refrigerator

The symmetrical four half-width doors require minimum space to swing open and are perfect for narrow kitchens. The interior is large enough to fit long party platters, while the many storage compartments make organising different foods simple.

Four Door Refrigerator

GNE 134620 X

- Adjustable spill-safe glass shelves
- Humidity controlled crispers
- Door alarm
- Automatic ice machine
- Split shelving system
- Multi-zone compartment
- Mini bar

Active ioniser

Automatic Ice Machine

When the amount of ice falls below a given level, water is diverted from the network into the ice machine, ensuring you always have a supply of ice cubes when you want them.

Mini Bar

Even 2.5 litre bottles can be reached without having to open the door thanks to the mini bar lid and extra room on the fridge compartment door. Drinks can also be served on the opened mini bar lid.

Refrigerator

GNE 60020 X

- NeoFrost frost-free cooling technology
- Fast cooling function
- 8 freezer sections
- Electronic control
- Dual extendable roller crisper drawers

Top Mount Refrigerators

If you're looking for flexible fridge storage to accommodate a busy lifestyle, the Beko range of Refrigerator Freezers are a perfect solution. All models combine easy access storage with contemporary styling and are packed with features for your convenience.

Active Seal Guard

Door seals are usually hard to clean and provide a suitable environment for the accumulation of bacteria. Antibacterial door seal improves hygiene and protects fridge interior and freezer compartments.

Beko clothes dryers with energy efficient smart solutions

Beko offers a well-designed selection of sensor controlled tumble dryers that are guaranteed to meet all your drying requirements. Sensor dryers detect the level of dryness required for each load of washing and will automatically stop once the level has been achieved. This will stop your clothes from getting too hot and shrinking, plus saving you on your energy costs.

Active Fan Drying

The Active Fan Drying system increases air circulation in the dishwasher to help reach perfect drying results with normal temperatures, so you can put your dishes straight into the cupboard.

Antibacterial Seal

Due to the dirt accumulation over time, bacteria reproduction may occur on the gasket of the dishwashers.

The Antibacterial Seal on Beko dishwashers acts as a guardian to block this formation.

Tablet Detergent Button

Beko dishwashers are equipped with a tablet detergent button to eliminate unsatisfactory drying results or undissolved tablet residues.

Baby Care Program

The baby care program is certified by LGA for providing 99.99% hygiene.

Create the perfect meal for any occasion with Beko multi-function ovens

Beko built-in ovens come with a variety of features to make your life simpler. They all feature solid glass doors and a nano-coating on the inner glass to ensure its shine lasts for years to come. The range offers a choice of Pyrolytic, Steam Assisted and Multifunction Double ovens with a large interior gross capacity up to 94 litres.

Induction Cooking

When using induction cooking, the cooktop surface only heats up if there is a pot or pan on it. While cooking, heat transfers directly to the pan, so that the cooktop stays cool to touch - making it much easier to clean. So as soon as the cookware is removed, the area turns off automatically.

Induction cooking also saves you time and money on bills by being 70% more efficient than gas and 20% more efficient than electric.

Booster Function

The booster function easily activates all heaters for quick pre-heating to reach set cooking temperature.

HIG 95223 SX

- Front control
- 90cm
- 5 burners (4 standard + 1 wok)
- Cast iron trivets

Flame safety device

Knob integrated electronic ignition

Flame Safety Device

This special device senses when flames occur. If the flame goes out accidentally by wind or by some kind of liquid, the gas flow is automatically shut off.

Wok Burner

The high-power wok burner cooks food rapidly, without compromising its nutritional value. Heat is more evenly distributed at the bottom of the pan, resulting in excellent cooking performance over a shorter period.

Save Space with the Beko Range of Multi-function Upright Cookers

The built-in storage drawer glides out easily and is handy for storing all your baking accessories

60cm Pyrolytic Cooker with Induction Cooktop

CSM 89500 GXP

- 5 shelf levels
- 60cm/77L gross capacity
- 12 Cooking functions
- 4 induction cooktop zones
- Quadruple Glazed Cool door
- Bottom storage compartment
- Stainless steel

Pyrolytic self-cleaning

Induction cooking technology

side racks

Easy-to-Clean Full Glass Door

Constructed with a full glass panel, the door interior is free from bolts, making it easy to clean with one single wipe.

Cooling Fan

The fan cools the oven down after cooking, which quickly reduces the time the oven is hot.

Introducing the Beko series of stainless steel rangehoods for the complete kitchen

90cm T-Shape Rangehood HCB 91845 BX

- Brushless motor technology
- 800m³/h maximum
- 3 operation levels plus booster mode
- 3 x 4 Watt LED lamps
- Noise level 52 db (A) - 65 db (A)^
- 3 x washable aluminium cassette filters
- LED touch control
- Remote controller for hood
- Recirculation and ducted operation modes
- Stainless steel

Inverter Technology

Beko air conditioners are equipped with Inverter Technology, offering ideal air conditioning by adjusting the compressor speed to maintain a desired temperature.

With the advanced cooling and heating capacity of this technology, Inverter Technology Air Conditioners are more economical, more efficient and quieter than conventional models.

Split System Inverter Reverse Cycle Air Conditioner

BK2600

- 2.6kw Cooling Capacity
- 2.8kw Heating Capacity
- Indoor power supply

Dehumidify Function

Ideal for environments with high humidity, the Dehumidify Function will operate in cooling or fan mode and dehumidify the air without lowering the room temperature.

Turbo Cooling

The Turbo Cooling function is for quick & efficient cooling. Air will blow at high speeds for 30 minutes until the room temperature reaches 18°C.
