Install/replace the remote control batteries

Install the Remote Control:

The Remote Control has a pre-installed lithium CR2025 battery. Remove the protective tab to activate the Remote Control battery.

Note: The Remote Control works within a range of 19.7 feet.

- If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

WARNING: Do not expose the battery to excessive heat such as direct sunlight or fire.

4 Set up your Sound Bar system

Make sure you read all the safety information before you mount the Sound Bar on the wall.

Make sure you use screws provided or specified by the authorized manufacturer.

TCL bears no responsibility for accidents or damage caused by improper wall mounting and screws installation or insufficient wall strength, etc.

Additional tools (not supplied) are required for installation.

Position Your Sound Bar and Subwoofer

The ideal place to position the Sound Bar is centered underneath your TV.

You are recommended to place the Sound Bar on the top of the cabinet and right below the center of your TV. The distance between the subwoofer and the Sound Bar should be less than 9.8'.

Note: Do not place your sound bar in a location exposed to direct sunlight, heat, fire, or moisture.

Mount your Sound Bar on the wall

You can choose to mount your Sound Bar on the wall.

1. Place the supplied wall mount template on the wall. Make sure the wall mount template is at least 3.9" below the center of the TV.
2. Use a level to make sure the Sound Bar is positioned accurately.
3. Use the tape to stick the wall mount template firmly on the wall.
4. Mark on the wall using each marking on the template

through the mounting holes.

5. Take away the wall mount template.
6. Drill a screw hole at each marking on the wall.

7. Take out the screws from the rear of the sound bar, 2 per side.
8. Use a screwdriver to attach the mounting brackets to the sound bar.
9. Installation complete.

10. Insert the supplied wall anchors into 2 screw holes on
